● ABOUT ME

I'm an HSE and operations leader with a solid background in **oil and gas drilling, occupational safety, and energy operations**. Over the years, I have led health, safety, and environmental programs that not only ensured compliance but also improved day-to-day performance in high-risk environments. My experience has taught me how to build and guide strong teams, handle crises with confidence, and negotiate effectively with stakeholders at all levels. I enjoy connecting safety strategy with broader business goals so that operations run smoothly, risks are minimized, and growth is sustainable.

● CORE COMPETENCIES
