## Professional Summary

---

Dynamic and detail-oriented Civil Engineer with 3 years of hands-on experience in the construction industry, specializing in site supervision, site execution, project management, and planning. Proven record in supervision of construction projects and executing complex engineering tasks with precision. Skilled in problem-solving and technical analysis, adept at collaborating with multidisciplinary teams to ensure project objectives are met on time and within budget. Committed to continuous learning and professional development, seeking opportunities to leverage my engineering expertise and contribute to innovative projects.

## Professional Experience

---

### Civil Site Supervisor

Awan Solutions for Information and Technology  
Abqaiq, Saudi Arabia

May 2025 - October 2025

#### Roles & Responsibilities:

- Supervised and executed the construction of reinforced concrete foundations for CCTV poles, motorized gates and perimeter security fence at project site.
- Coordinated with multidisciplinary teams within an IT and security solutions company.
- Maintained accurate records of site activities, including daily reports, progress photographs, and material testing results.
- Managed material allocation and usage for site activities to optimize resource utilization.
- Planned site activities in alignment with the scheduled program and collaborated with planning team to address challenges and implement solutions.
- Ensured workers follow safety protocols and conduct site safety inspections.

### Site Engineer (Civil)

RMS (PVT) Limited  
Islamabad, Pakistan

June 2024 - April 2025

#### Roles & Responsibilities:

- Managed daily operations on construction sites, ensuring projects are completed on time and within budget.
- Implemented value engineering techniques to reduce the project cost by 19%.
- Collaborated with multidisciplinary teams to integrate innovative materials and techniques into traditional construction practices.
- Coordinated with Project engineer for the efficient allocation and management of resources.
- Documented site discrepancies and coordinated design team to resolve design-related issues.
- Communicated with subcontractors and suppliers to ensure timely availability of materials.
- Participated in weekly site meetings to discuss project quality outcomes and upcoming tasks.
- Identified potential challenges related to construction projects and developed proactive solutions.

## **Trainee Site Engineer**

Water and Power Development Authority (WAPDA)  
Lahore, Pakistan

May 2023 - September 2023

### **Roles & Responsibilities:**

- Oversee day-to-day activities, ensuring adherence to project specifications, standards, procedures, and approved IFC drawings.
- Supervise activities such as site preparation, including layout and excavation, and oversee the placing of subbase, base, and surface course of a road.
- Interpret engineering drawings and plans and provide technical support to crew members. Resolve unexpected technical challenges with a proactive approach.
- Communicate to clients, consultants and architects for the progress and development of the assigned project.
- Managed material allocation and usage for site activities to optimize resource utilization.
- Ensure workers follow safety protocols and conduct site safety inspections.
- Engage in professional development activities, such as workshops and training sessions, to enhance professional skills.

## **Engineering Intern (Civil)**

Defence Housing Authority (DHA)  
Islamabad, Pakistan

June 2022 - September 2022

### **Roles & Responsibilities:**

- Supervised daily operations of an infrastructure project to ensure work according to specifications and construction drawings.
- Organized site activities in accordance with the project schedule and worked closely with the planning team to tackle challenges and develop effective solutions.
- Enhanced resource efficiency by optimizing the material and managing site activities.
- Actively participated in weekly site meetings to learn and enhance civil engineering skills.
- Analyzed geotechnical data obtained from field investigations and laboratory tests.

## **Education and Training**

---

**National University of Sciences and Technology (NUST) | Islamabad, Pakistan**  
**Bachelor of Civil Engineering**

- CGPA : 3.66 /4.00

## **Certifications**

---

- 30 Hour OSHA in Construction Safety & Health | NYCCST
- Concrete and Masonry Safety Training | NYCCST
- Diploma in Quantity Surveying & Cost Estimation | Udemy
- Quantity Surveying & Building Estimation | Udemy
- Primavera P6 Professional Training | Udemy

## **Key Skills**

---

Site Supervision

Drawing reading

Time management

Construction inspection

Quality assurance

Problem solving

Software (AutoCAD, Microsoft Office, Primavera P6)

## **Accomplishments**

---

- Merit-based scholarship recipients.
- Recipient of a laptop from the Prime Minister.
- Achieved silver medal as a key player in runner-up cricket team.

## **Languages**

---

**Urdu:** First Language

**English:** Professional Level

## **Iqama Status**

---

Transferable iqama with a number of 2606369342.
