ACHIEVEMENTS

- Roads and Infrastructure in Al Ebb & Leabaib, Package-5 DN099 P05:-
Client: Public Works Authority, Contractor: TRI CONSTRUCT W.L.L, Consultant: Keo International Consultants, Contract Price: 395 Million Qrs, Scope of Works: Earthworks, Surface Water Drainage Networks, Sewerage Networks, TSE Networks, Utilities (Wet & Dry) and Roads Works.
- Roads and Infrastructure in West Muaitheer Al Manaseer, Phase-1 DW002 P01:-
Client: Public Works Authority, Contractor: (NBHH), Consultant: Dar Al Handasa, Contract Price: 597 Million Qrs, Scope of Works: Scope of Works: Earthworks, Surface Water Drainage Networks, Sewerage Networks, TSE Networks, Utilities (Wet & Dry) and Roads Works.

JOB RESPONSIBILITIES:

Policies, Systems, Processes & Procedures:

- Follow all relevant QAQC, policies, standard operating procedures, and instructions so that work is carried out in a controlled and consistent manner.
- Demonstrate compliance to the organization's values and ethics at all times to support the establishment of a value-driven culture within the organization.

Inspection and Testing:

- Verify methods of inspection, testing, and instrument calibration, to ensure, accurate traceability of measurement.
- Conduct regular quality surveillance on site, to ensure works are following as-built drawings, and to report any deviations to senior management.
- Monitor tests and examinations conducted by QC inspectors, to ensure accurate reporting of project status.

Documentation and Record-Keeping:

- Gather QAQC records (drawings, submittals, etc.) are properly managed and stored, to ensure the accessibility of relevant information.
- Liaise with consultant's representatives, to provide required documentation and tests performed, ensuring the accurate transfer of information.
- Ensure QAQC documentation is revised and up-to-date (version numbers, dates, status), including the appropriate disposal of obsolete documents, to ensure relevant information is readily available.
- Record and monitor as-built information daily, to ensure adjusted records.

Compliance and Conformance:

- Participate in project management, by ensuring executed works are conducted as per drawings, project specifications, and material submittals.
- Contribute to quality Inspection and Test Plans (ITP), by ensuring they are implemented correctly and follow industry best practices.
- Address non-conformance reports, to ensure works that do not comply contractually are correctly and timely addressed. Oversee material and equipment installation on-site or fabricated off-site, to assure contractual compliance.
- Survey openings above false ceilings for proper sealing and ensure fire zones are not infringed, to fulfill health and safety requirements and regulations.

Communication and Coordination:

- Maintain communication with the project team, superintendent, and subcontractors to identify deficiencies, punch list points, snags, and ensure adequate process capabilities to sustain information feedback.

Continuous Improvement:

- Contribute to the identification of opportunities for continuous improvement and sustainability of systems, processes and practices considering global standards, productivity improvement and cost reduction.

Reporting:

- Assist in the preparation of timely and accurate reports to meet department requirements, policies, and quality standards.
