

NOUMAN ZAFAR

QA/QC Inspector

Riyadh, Saudi Arabia | +966-564823370 | nozafar.be95mce@gmail.com

Profile

I am a Graduate Civil Engineer progressively diversified experience in Quality Control and Site Supervision of Various multistory buildings and infrastructure. I have more than **4 Years** of field Experience in handling projects from initiation to final hand over, my expertise of work experience ranges from Quality management for both multistory buildings and Bridges. I have held multiple positions like QA/QC Inspector, site supervisor during my professional career.

Experience

QA QC Inspector | Al Rashid Trading & Contracting Company | Riyadh

Aug 2025 – Present

Project: Extension and Rehabilitation of Terminal 1 and 2 at King Khalid International Airport

- Responsible for Inspection Monitoring on all civil works & construction activities are carried out in accordance with the client specification.
- Approved method statement, inspection test plan (ITP), quality control procedure (QCP).
- Receive Materials on site from suppliers and follow-up material storage on site.
- Ensure that the inspections and tests are properly recorded.
- Prepared and submit material / work inspection request and testing.
- Participate in Weekly QA/QC meeting with Client and internally.

QA QC Inspector | China State Third Engineering Bureau | Dubai

May 2023 - July 2025

Project : Hassyen Coal Power Plant

- Performed detailed QA/QC inspections for civil works ensuring full compliances with project specifications and international standards (ACI/ASTM).
- Supported major structural works by verifying reinforcement layouts, concrete mix design, and material traceability.
- Conducted on-site testing (slump, cube sampling, compaction, and soil density) and assisted in root-cause analysis for non-conformities, contributing to reduce rework and timely completion of critical activities.
- Managed quality documentation including ITPs, material approval, test reports, and checklists.

Assistant QA QC Inspector | Frontier Works Organization| Islamabad

July 2022 - April 2023

Project: Construction of Bhander Bridge

- To check Quality Assurance & Quality Control for girders, bearings, diaphragms, deck reinforcement, formwork, and concrete work to ensure full compliance with design drawings.
- Supervised quality testing for deck slab concrete, pre/post tensioning operations, grout quality and material certifications.
- Prepared QA/QC reports weekly to maintain traceability.

Assistant QA QC Inspector | Defence Housing Authority | Islamabad

July 2020- June 2022

Project : Construction of multistory-buildings for commercial and residential purpose

- Conducted QA/QC inspections for all structural activities—columns, shear walls, slabs, beams, foundation works—ensuring strict compliance with approved drawings, project specifications, and international standards.
- Verified reinforcement placement, formwork alignment, concrete mix quality before major pours; ensured accurate documentation through checklists, ITPs, and pre/post-pour inspection reports.
- Managed material verification including concrete, steel, blocks, waterproofing, and finishing materials; coordinated with suppliers, labs, and consultants to maintain complete traceability and timely approvals.
- Raised and resolved NCRs, performed root-cause analysis, and monitored corrective actions; improved first-inspection pass rates and significantly reduced structural and finishing rework across multiple building floors.

Education

Bachelor of Engineering in Civil Engineering | National University of Science and Technology | Islamabad, Pakistan

Technical Skills and Competencies

Technical Skills

AutoCAD, Revit (BIM), Primavera P6, Structural Load Calculations, Technical Reporting

Project Management

Construction Supervision, Quality Assurance & Control, HSE Compliance, Team Coordination, Time Management, Attention to Detail

Membership

Pakistan Engineering Council (Civil/078087)

Activities and Interests

Community Service, Modern Construction Technology, Sustainable Design
