Professional Summary

Civil Engineer with 1+ years of experience in structural design, project execution, and site supervision. Skilled in AutoCAD, Etabs & Safe, project planning, and quality management. Proven ability to deliver safe, cost-effective, and durable structures while coordinating effectively with architects, contractors, and clients.

Professional Experience

Site Engineer — Unnati Buildtech (Shreerath Apartments), Hyderabad April 2025 – Oct 2025

- Supervised daily construction activities for a 628-units residential project, maintaining 100% adherence to project timelines and safety protocols.
- Achieved high-precision centering and shuttering execution, reducing concrete rework by 20% through rigorous pre-pour checks.
- Streamlined daily reporting processes, improving communication flow with project managers and accelerating decision-making.
- Resolved over 50 on-site technical issues, minimizing downtime and keeping the project on track without schedule slippage.

Site Engineer — HS Builders & Developers, Hyderabad July 2024 – April 2025

- Delivered optimized foundation design recommendations after conducting detailed soil analysis, enhancing structural stability and reducing material costs.
- Improved shuttering alignment accuracy, cutting correction time by 25% and reducing delays during concrete pours.
- Ensured 100% compliance during site inspections by enforcing IS codes and project specifications.
- Strengthened cross-functional collaboration with architects and PMs, expediting issue resolution and reducing project lag.
- Leveraged AutoCAD & Civil 3D to produce precise foundation layouts, reducing design revisions by 30%.
- Drove safety awareness across teams, contributing to zero on-site incidents throughout the project duration.
