Nationality: Indian

PROFESSIONAL SUMMARY

Highly experienced **Senior Diesel Mechanic** with over **21 years of hands-on expertise** in maintaining, repairing, and overhauling heavy diesel vehicles and machinery. Skilled in diagnostics, preventive maintenance, and concrete pump systems, with extensive experience working on European brands including **Volvo, Scania, Mercedes Actros, Renault, MAN, Astra Iveco**, and **Putzmeister**.

Strong background in Middle Eastern work environments across **Qatar, UAE, and Oman**, with a proven record of delivering reliable maintenance and operational excellence under demanding conditions.

KEY STRENGTHS

- Extensive hands-on experience with European heavy vehicle brands
- Expert-level knowledge of diesel and concrete pump systems
- Strong diagnostic and problem-solving abilities
- Proven record in Middle East work environments
- Skilled in managing maintenance teams and work schedules
- Committed to safety standards and high-quality workmanship
- Adaptable to new technologies and evolving equipment

PROFESSIONAL EXPERIENCE

Senior Diesel Mechanic | *J&P – Qatar, Doha, Qatar*

January 2002 – June 2011

- Maintained and repaired heavy diesel vehicles and construction equipment
- Performed engine diagnostics and troubleshooting on multiple brands
- Conducted preventive maintenance programs to minimize downtime
- Ensured compliance with company safety standards and repair protocols

Senior Diesel Mechanic | *Al Futtaim Turmac, Dubai, UAE*

January 2011 – December 2013

- Specialized in the maintenance and repair of European diesel vehicles
- Conducted major overhauls and engine transmission rebuilds
- Provided technical support and supervision to junior mechanics
- Maintained high operational reliability under strict deadlines

Senior Diesel Mechanic | *Al Nuaimi Group, Oman*

2014 – 2021

- Led mechanical operations for large-scale vehicle maintenance projects
- Executed complex repairs on trucks, cranes, and diesel machinery
- Implemented quality control procedures to improve performance
- Trained and mentored technicians in diagnostic and maintenance practices

Senior Diesel Mechanic | *Dimaniyat Stone, Oman*

December 2021 – Present

- Managing diesel equipment maintenance operations
- Overseeing pump operations for Putzmeister and Schwing systems
- Performing diagnostic and full overhaul services on heavy equipment
- Ensuring consistent performance, reliability, and safety of all machinery

TECHNICAL EXPERTISE

Vehicle Brands

Volvo heavy vehicles, Scania trucks, Mercedes Actros, Renault commercial vehicles, MAN trucks, Astra Iveco

Specialized Equipment

Putzmeister concrete pumps, Schwing concrete pumps, pump overhaul and servicing, hydraulic systems diagnostics

Core Competencies

Diesel engine diagnostics and repair, transmission maintenance, hydraulic troubleshooting, electrical system diagnostics, preventive maintenance scheduling, quality control and compliance, team supervision and training

ACHIEVEMENTS

- Reduced breakdown time by improving preventive maintenance routines across multiple fleets.
- Improved reliability of concrete pump operations by systematically identifying hydraulic faults.
- Successfully handled multi-brand European trucks without formal OEM training.
- Maintained consistent safety record with **zero major workshop incidents**.
- Recognized by supervisors for fast troubleshooting and accurate repair judgment.

WORK REGIONS

- **Qatar:** 9+ years of experience
- **UAE:** 2+ years of experience
- **Oman:** 10+ years of experience

Total Experience: 21 Years

EDUCATION

Industrial Training Institute (ITI) – Diesel Mechanic
Kerala, India
