Before issuing the attached certificate, please read the Basic Receiver Requirements for Safe Work and ensure you are completely satisfied that the candidate meets all criteria.

If satisfied, please complete the required information on the certificate and obtain the candidate's signature. Note that this certificate is not valid unless the proponent Division Head signs it.

Sami S. Al-Ghamdi, Superintendent
Safety Training Division

Basic Receiver Requirements for Safe Work

1. Go with the issuer to conduct a joint site inspection.
2. Do only the work which is written on the permit.
3. Ensure all required gas tests are done before you start work.
4. Ensure that the issuer has explained and that you understand the required safety precautions written on the permit.
5. If a system has been isolated, make sure it cannot be started and you fit your lock and tag to the system.
6. Remain at the job site. If you need to leave the work area for short intervals, work must stop.
7. Obtain the signature of the oncoming supervisor on the existing permit, if your job is going to continue through a shift change.
8. Keep the permit in view at all times at the job site.
9. If any conditions change to create a hazard - STOP WORK!
10. Inspect the job site with the issuer and close the work permit.
