SAFETY SUPERVISOR / INSPECTOR

MY CAREER SUMMARY

Highly experienced Safety Supervisor / Inspector with extensive expertise in the construction industry, specializing in overseeing safety management across high-rise towers, hospitals, residential, infrastructure, and commercial projects.

Skilled in implementing and monitoring safety protocols, conducting inspections, hazard and risk assessments, and ensuring compliance with HSE standards. Proven ability to supervise all aspects of site safety, from scaffolding and excavation to hot work and lifting operations, maintaining accident-free work environments.

Strong leadership, training, and problem-solving skills, committed to promoting safety culture and ensuring projects are executed safely and efficiently.

MY EXPERTISE

- Conducted daily site safety inspections to identify hazards and ensure compliance with safety standards, PTW systems, and job hazard analysis.
- Monitored high-risk activities such as confined space entry, lifting operations, excavation, and working at heights.
- Delivered safety inductions, toolbox talks, and refresher training sessions to raise workforce awareness and compliance.
- Assisted in developing, reviewing, and implementing site-specific safety procedures, method statements, and risk assessments.
- Reported and recorded unsafe acts, unsafe conditions, near misses, and incidents, while ensuring corrective actions were promptly implemented.
- Maintained accident, incident, and near-miss records with proper documentation for audits and client reporting.
- Conducted safety audits, walkthroughs, and inspections in coordination with management and subcontractors.
- Coordinated with construction, mechanical, and electrical teams to resolve safety issues during project execution.
- Supported emergency preparedness by conducting mock drills, fire-fighting training, and evacuation exercises.
- Verified certifications of lifting equipment, scaffolding, machinery, and PPE to ensure regulatory compliance.
- Supervised subcontractors' compliance with HSE requirements and ensured proper work permits were in place.
- Monitored welfare facilities, housekeeping, and waste management.
- Assisted in accident/incident investigations, root cause analysis, and implementation of preventive measures.
- Ensured compliance with client, contractor, and government HSE standards.
- Prepared daily, weekly, and monthly safety reports, highlighting key findings, statistics, and action plans.
- Engaged with workers directly to build a strong safety culture.
- Coordinated with emergency response teams for medical support and firefighting readiness.
- Regular site safety inspections, audits, and hazard assessments.
- Monitor and implement Permit-to-Work (PTW) systems, job hazard analysis.
- Deliver safety inductions, toolbox talks, and ongoing training programs.
- Identify unsafe acts and conditions, issue corrective actions, and follow up to verify closure.
- Coordinate emergency drills, incident investigations, and root cause analysis, maintaining accurate records and reports.
- Ensure compliance with safety requirements for heavy equipment, scaffolding, excavation, confined space entry, and working at heights.
- Liaise with subcontractors, supervisors, and management to align safety procedures with project goals and client standards.
- Verify proper use of PPE, safe handling of tools/materials, and adherence to lifting, rigging, and hot work safety guidelines.
- Maintain HSE documentation, inspection checklists, and performance reports for management review and client submission.
