## WORK EXPERIENCE

### • Designer & Sales

During my time working at Alissa Company, Newly branch, which specializes in modern German kitchens, I attended several intensive training courses that focused on the foundations of urban design and the standards adopted for contemporary German kitchens.

**Al-Essa Company-Niuli**  
**Saudi Arabia / Riyadh**  
**Dec 2021 to Mar 2024**

I successfully completed all stages of the training and then joined the team, where I worked for over two years in the fields of kitchen design and direct sales as a **freelancer**. During this time, I actively contributed to providing innovative design solutions to clients, which positively impacted sales results. My experience with them was crowned with success, both professionally and personally.

### • warehouse Manager

WarehousesDepartmentManagerOf in the BANI LTD Company, which includes several tasks such as managing all the warehouses of the subsidiary projects in the company, which exceed 30 sub-warehouses, including the employees (Storekeepers, supervisors, and administrators), in addition to the central warehouse, its employees, and its management, determining the ,powers of all employees of the department, developing plans, procedures & and a unified and organized work policy, working on ERP systems (Odoo SAP), internal systems of the company such as MOOLA, and many tasks .related to the management of the known warehouses

**BANI LTD Company**  
**Saudi Arabia / Riyadh**  
**MAY 2025-Until Now**

### • Warehouse Supervisor

Responsible for the company's project warehouse systems and staff in the Riyadh region. This includes training employees and providing them with work mechanisms in accordance with company policy and warehouse management rules. This includes working with the ERP system, adhering to the KPI system, and linking the warehouse and project with engineers, supervisors, workers, and management to avoid any problems or difficulties. This includes meticulously monitoring inventory to maintain optimal levels at the end of each year, and many other duties associated with warehouse management.
