

AHMED KASSAB

Civil Site Engineer

Location: Riyadh | +966 559764425 | Nationality: Egyptian | Languages: English and Arabic
| Iqama: Transferable | Marital Status: Married | engahmed.kassab97@gmail.com

Self-Introduction

As a devoted civil engineer with cumulative experience over a decade in the construction field, having cumulative experience of 5 years dealing with various clients and projects, I have gained ample knowledge in various construction-related projects such as execution (earthwork, casting, shoring and building construction with finishing works) and testing. I am seeking for a challenging job in a professional organization that would increase my knowledge, sharpen my technical & administrative skills & offer opportunities for continuous growth of my knowledge.

Role & Responsibilities:

My Role as Construction Engineer

- Executing the daily construction related task to achieve the milestone of the project.
- Prepare the look a head plan for the daily construction operations with the objective of ensuring that preliminary works are executed and passed prior to the commencement of next activity.
- Design/Shop drawings study and implement at site.
- Quantities take-off as well as calculate the material breakdown.
- Providing technical advice and solving problems on site.
- Submit the daily progress report and prepare plans to proceed. Material receiving and Testing.
- Day to day problem solving and answering/ resolving any technical queries.
- Perform all inspection activity as per project standard and follow up with sequence of activity as per approved ITP.
- Check and supervise the site activities following the project quality plan and specification.
- Monitor the received concrete deliveries and concrete pouring activities.
- Responsible for execution of all construction work at site compliance with specifications. Checking work as per drawings to ensure followed correctly.
- Deal with consultants and rectify the comments promptly (if any).

Experience

RUSCO | COMPANY | SEP 2024 – PRESENT

Client: Neom

Contractor : Al Fahd Contracting

Consultant: Parsons and Jacobs

Designation: Site Engineer

Project: Neom Port Development

Location: Duba, Tabuk

Project scope:

Earth work and asphalt :

Executed large-scale bulk earthworks, including cutting, backfilling, haulage, and compaction using dynamic compaction (DC) and rapid impact compaction (RIC) machinery. Additionally, retaining walls were constructed using precast concrete blocks, ensuring structural stability and compliance with project specifications.

MAP DESIGN | JAN 2021 – AUG 2023

Designation: Site Engineer

Project: Residential

Location: Mansoura, Egypt

Project scope:

Interior finishing works

EL SAADANY CONT. | AUG 2020 – DEC 2020

Client: Civil Defense

Consultant: Moharram Bakhoum

Designation: Site Engineer

Project:

Residential

Location: Egypt

Project Scope:

Interior finishing Works and Construction works

Skills & Abilities

- Highly skilled at planning and execution of special projects in time-critical environments.
- Extensive knowledge in directing, coordinating and exercising authority for planning, organization, control and completion of projects.
