PROFESSIONAL SUMMARY

A dedicated Civil Engineer with 5+ years of construction experience, including 1 year in Pakistan and 4 years in the GCC (UAE and KSA), specializes in site supervision, QC inspections, structural works, and project execution for infrastructure, villas, and building projects. Proven expertise in quality control processes, material inspection, compliance verification, reading and reviewing civil drawings, making BOQs, supervising structural construction activities, and managing project execution from planning to completion. Adept at coordinating with multidisciplinary teams, ensuring quality standards, and utilizing engineering software for design implementation. Seeking to contribute my technical skills in estimation, site engineering, and QC inspection to support project success anywhere in the Kingdom of Saudi Arabia (KSA).

CORE COMPETENCIES

- **Site Supervision:** Structural works oversight, quality control, progress monitoring, subcontractor coordination
- **QC Engineering:** Material inspection, compliance verification, non-conformance reporting, QA/QC documentation
- **Project Execution:** Planning, scheduling, resource allocation, milestone tracking, project delivery
- **Structural Works:** Reinforced concrete structures, formwork, rebar installation, structural elements
- **Technical Skills:** Civil drawings review, AutoCAD 2D, ETABS, SAP 2000, Primavera P6, MS Office
- **Quality Assurance & Control:** Inspection, testing, compliance with standards, documentation, ITP implementation
- **Cost & Budget Management:** Proficient in developing, reviewing, and managing Bills of Quantities (BOQ). Skilled in budget forecasting, cost control, value engineering, and financial performance tracking to ensure project viability

PROFESSIONAL EXPERIENCE

SHOROUK EXCELLENCE ARAB CONTRACTING CO., Riyadh, KSA

Civil Engineer — Project Execution, Estimation Civil | Nov 2024 – Present

- Oversaw structural construction and BOQ preparation for villa and large-scale projects, ensuring reinforced concrete, formwork, and rebar works met design, budget, and quality standards.
- Read and review civil drawings, structural details, and shop drawings to ensure accurate implementation on site.
- Execute project plans by monitoring daily progress, coordinating resources, and ensuring adherence to schedules.
- Perform quality control inspections of materials, formwork, reinforcement, and concrete works to ensure compliance with project specifications and Saudi Building Codes.
- Coordinate with subcontractors, suppliers, and engineering consultants to resolve technical issues.
- Prepare and maintain QC documentation, inspection reports, and material approval records.
- Utilize engineering software (AutoCAD, Civil 3D) to review designs and implement modifications as needed.

RMB CONTRACTING LLC, Abu Dhabi, UAE

Civil Engineer — Project Execution | Feb 2023 – Oct 2024

- Executed civil works for road and utility projects, focusing on structural elements and site development.
 - Reviewed civil and structural drawings, identifying potential conflicts and proposing solutions.
 - Assisted in project planning, scheduling, and resource allocation for timely project delivery.
 - Supervised structural works including drainage systems, retaining walls, and foundation elements.
 - Conducted on-site QC checks for civil and structural activities, ensuring adherence to approved drawings and standards.
 - Monitored project progress against planned schedules and implemented corrective actions as needed.
 - Prepared technical submittals and progress reports for client review and approval.
-

OBAID AL QUBAISI CONSTRUCTION — ADNOC EPC Project, UAE

Civil Engineer — Structural Works | Oct 2021 – Jan 2023

- Implemented structural designs for camp facilities and high-specification buildings.
- Supervised structural construction activities including concrete pouring, reinforcement, and formwork.
- Reviewed structural drawings and coordinated with design teams for clarifications and modifications.
- Performed quality inspections of structural elements, concrete tests, and reinforcement prior to pouring.
- Ensured all structural works complied with project specifications and quality standards.
- Participated in project execution planning and progress monitoring activities.
- Gained hands-on experience in structural construction methodologies and techniques.

DESCONS CONSULTANTS — LA TOWER (RING ROAD, PESHAWAR, PAKISTAN)

Site Engineer | Sep 2020 – Sep 2021

- Supervised day-to-day construction works ensuring adherence to project plans, drawings, and standards.
- Conducted bar bending schedule (BBS) verification, rebar inspections, and shuttering checks before pouring.
- Performed quality control checks for curing, compaction, and finishing works for reinforced concrete and architectural elements.
- Ensured implementation of HSE guidelines and site safety procedures.
- Prepared daily and weekly site progress reports and submitted them to the project manager.
- Coordinated with clients, consultants, and contractors for smooth project execution.
- Assisted in material submittal reviews, inspection test reports, and technical correspondence.

TECHNICAL SKILLS

- **Cost Management & Estimation:** Bill of Quantities (BOQ) Development & Review, Budget Forecasting, Cost Tracking, Value Engineering Analysis
- **Engineering Software:** AutoCAD (Advanced), ETABS, SAP 2000, MS Project, Primavera P6, MS Office Suite

- **Structural Expertise:** Reinforced concrete design, structural detailing, foundation systems, load calculations
 - **QC & Quality Assurance:** Material inspection, compliance verification, non-conformance reporting, ITP implementation, QA/QC documentation
 - **Project Management:** Scheduling, resource planning, progress tracking, milestone management
 - **Standards & Codes:** Saudi Building Code, international structural standards, safety regulations
-

EDUCATION

Bachelor of Science in Civil Engineering

COMSATS University of Science & Technology, Pakistan

PROFESSIONAL AFFILIATION

Pakistan Engineering Council (PEC) — Registered Professional Engineer, Reg. No. 58101

ELIGIBLE FOR SAUDI COUNCIL OF ENGINEERING

CERTIFICATIONS

- IOS 19011 LEAD AUDITOR
 - AutoCAD Professional Certification
 - Estimation Quantity
 - Primavera P6 Project Management
 - ETABS
-

LANGUAGE PROFICIENCY

English: Professional proficiency (Technical reporting, meetings, documentation)

Arabic: Working proficiency (Site coordination)

Urdu: Native

Pashtu: Fluent
