

AAFAQ FAZAL

ERP Project Implementation Leader & IT Operations Manager

055 935 1853 | fazalaafaq@gmail.com | Riyadh, Riyadh region 12223

LinkedIn: <https://www.linkedin.com/in/aafaqfazal/> | **Nationality:** Pakistani

PROFESSIONAL SUMMARY

ERP Project Implementation Leader and IT Operations Manager with 5+ years of experience delivering enterprise ERP solutions and leading IT operations across multi-division organizations. Proven expertise in ERP migration, module selection, cost/profit center reporting, approval matrix setup, user training, and system security. Strong background in IT infrastructure, cloud systems (AWS), cybersecurity compliance, and enterprise user support. Successfully managed ERP systems and IT operations for 300+ users, ensuring business continuity, data integrity, and operational efficiency.

EXPERIENCE

IT Supervisor / ERP & IT Operations Lead, Rawasi Albina Investment Co, June 2023 - Present Riyadh

- Acting as **ERP Project Owner**, responsible for ERP administration, enhancement, and daily operational sustainability across multiple business functions.
- Led ERP operations for **Construction, Services, and Trading divisions**, supporting finance, operations, inventory, and reporting needs.
- Managed ERP **user roles, permissions, workflows, approval matrix, and access controls**.
- Ensured accurate **cost center and profit center reporting** to support management decision-making.
- Coordinated ERP support for **pre-tendering activities** within construction operations.
- Trained end-users and department representatives on ERP modules, reports, and best practices.
- Prepared **monthly and quarterly performance reports and dashboards** for management.
- Maintained ERP documentation, **user manuals, SOPs**, and process workflows.
- Acted as first point of contact for **ERP bugs, issues, and enhancements**, coordinating with vendors when required.
- Managed ERP data security, backups, confidentiality, and system availability.

Associate Software Engineer, Datalytics.AI, January 2023 - July 2023 Islamabad

- Proficient in managing both Linux and Windows servers to ensure seamless and reliable operations.

- Experienced in utilizing GitHub Actions for automating build, test, and deployment processes to improve development efficiency.
- Skilled backend developer in Python, with expertise in creating REST APIs for AI applications, including Text-to-Speech (TTS) and Speech-to-Text (STT) technologies.
- Developed automated Chrome extensions to streamline workflows and enhance productivity for team efficiency.
- Hands-on experience in implementing Continuous Integration/Continuous Deployment (CI/CD) pipelines to automate code integration and deployment.
- Expertise in containerization and orchestration using Docker to improve application scalability and management.

IT Operations Leadership

- Sole IT Operations Lead managing 300+ users across departments.
- Installed, configured, and supported hardware, software, ERP, Microsoft 365, and business applications.
- Administered Windows Server 2016, Active Directory, Group Policies, shared resources, and backups.
- Managed AWS cloud infrastructure, VPS hosting, system monitoring, and optimization.
- Implemented cybersecurity controls and successfully achieved Aramco CCC compliance.
- Led IT audits with Moore, addressing gaps and strengthening security posture.
- Developed and enforced IT policies, access controls, and incident response procedures.
- Delivered continuous IT training and user support to ensure operational efficiency.

Software Engineer intern | Associate Software Eng., Solutions Player, January 2022 - December 2022, Islamabad

- Developed static and dynamic websites using HTML, CSS, PHP, JavaScript, and MySQL.
- Built CMS-based data-driven websites and managed projects using Microsoft Project.
- Completed WordPress projects and installed/managing various operating systems.
- Developed a CRM system using PHP, MySQL, Bootstrap 5, CSS, and JavaScript.
- Managed software on hosting and configured domains on Bluehost.
- Provided essential IT support, troubleshooting system and software issues, demonstrating foundational skills required for hotel support operations.
- Managed software hosting and domain configurations, showcasing experience in managing public-facing technologies.

PROJECTS

- **ERP Administration:**
Managed ERP system modules, user roles, workflows, and integration with internal applications
- **Inventory Management System for Warehouse**
Designed and developed an Inventory Management System using PHP, MySQL, HTML, CSS, and JavaScript to efficiently handle stock in/out operations, track inventory levels, and generate detailed reports for warehouse management.

- **WordPress Website Development**

Designed and developed professional WordPress websites for various industries, including company portfolios, rental businesses, real estate, packers and movers, and salons. Ensured responsive design, SEO optimization, and seamless user experience to enhance online presence and business growth.

- **Windows Server 2016 Configuration:**

Configured and deployed Windows Server 2016, set up Active Directory (AD) for user and group management, implemented Group Policies for security and operational efficiency, and created shared drives.

- **Cybersecurity Compliance Certification: Perfect. Keep the exact text:**

Successfully completed all required controls and obtained the Cybersecurity Compliance Certificate for Aramco. Ensured adherence to industry standards and regulations to maintain secure and compliant IT operations.

- **IT Audit (Moore): Perfect. Keep the exact text:**

Performed an independent IT audit for Moore, evaluating the organization's IT infrastructure, security controls, and compliance with regulatory standards. Identified areas for improvement).

- **Real Estate CRM Development**

Created a custom CRM system for a real estate company using PHP and Bootstrap. CRM efficiently managed client interactions, property listings, and transactions, providing a user-friendly platform to streamline sales, leasing, and customer relations.

- **Google Chrome Extension Development & AI Models**

Developed a Google Chrome extension using Python, incorporating AI-powered text-to-speech and speech-to-text models. Additionally, we created a final year project (FYP) analyzing sentiment data from datasets, utilizing machine learning techniques to process and interpret text data for sentiment analysis.

EDUCATION

Bachelor of Science (B.S.) in Software Engineering

Iqra University, Islamabad, Jul 2022

GPA: 3.24

SKILLS

Enterprise Systems:

ERP administration, OSS/BSS familiarity, CRM, Inventory Management

IT Infrastructure & System Administration:

Windows Server, Active Directory, Network Configuration: Expert in deploying and managing Windows Server, configuring Active Directory (AD), and maintaining critical network components (routers, switches, firewalls).

Cloud Architecture & System Installation:

AWS Solutions Architect (Professional) & VPS Deployment: Proven ability to design and execute system installations, deploying and managing enterprise applications on AWS cloud infrastructure.

Network Security & Compliance:

Cybersecurity, IT Audit & Policy Implementation: Strong history in risk management, implementing cybersecurity policies, and ensuring compliance (demonstrated via Aramco CCC and external IT audits).

Back-Office Hotel Systems Readiness:

Microsoft 365 Administration & Support: Skilled in administering Microsoft 365, managing Exchange policies, compliance, backup strategies, and providing expert system administration support.

IT Support & Troubleshooting:

First-Line Support & Issue Resolution: Highly proficient in providing dedicated IT Support, rapidly troubleshooting hardware, system, and software issues to ensure timely resolution.

Automation & Hardware Performance:

CI/CD, Docker & System Monitoring: Utilizing automation tools (GitHub Actions, Docker) to streamline deployment, ensuring continuous stability and optimal hardware performance.

AAFAQ FAZAL

IT SUPERVISOR | CLOUD ENGINEER | WEB DEVELOPER

055 935 1853 ▪ fazalaafaq@gmail.com ▪ Riyadh, Riyadh region 12223

Dear Hiring Manager,

With **4 years of dedicated experience** in enterprise IT application management, ERP administration, and cloud infrastructure, I am writing to express my strong interest in joining **[Company Name]**. My background combines strategic project leadership with deep technical execution, ensuring that IT systems are not just functional, but are key drivers of organizational efficiency.

Currently, as the IT Supervisor and ERP Operations Lead at Rawasi Albina Investment Co., I manage the IT landscape for over 300 users across the construction, services, and trading sectors. My role as the ERP Project Owner has allowed me to master the complexities of system migrations, module selection, and the setup of critical approval matrices and cost-center reporting.

I am particularly drawn to this role at this company because it combines **enterprise application management, ERP systems, and integration across business units**, areas in which I have extensive experience. I am highly adaptable, solutions-driven, and committed to optimizing IT systems to meet business objectives.

I would welcome the opportunity to discuss how my skills in ERP administration, cloud deployment, cybersecurity, and IT application management can add value to this company. You can reach me at **055 935 1853** or via email at **fazalaafaq@gmail.com** to schedule a convenient time.

Thank you for considering my application. I look forward to your team.

Sincerely,

Aafaq Fazal

MY CERTIFICATE

3 Courses

Introduction to DevOps
Introduction to Cloud Computing
Introduction to Agile Development and Scrum

Mar 6, 2025

Aafaq Fazal

has successfully completed the online, non-credit Specialization

DevOps, Cloud, and Agile Foundations

In this Specialization, learners developed foundational knowledge in DevOps, including the culture, technology, and skills needed to succeed as a DevOps practitioner. This Specialization also familiarized learners with tools and technologies used by DevOps practitioners. Completers of this Specialization should be able to: Define Cloud Computing and explain its essential characteristics, models, benefits, infrastructure, & emerging trends, and create a cloud account; Describe the DevOps culture, its benefits, and its associated skills, technology, tools, processes, methodologies, and metrics; Explain the Agile philosophy, how to work as an Agile team, and Scrum methodology, including the roles, meetings, rules, and artifacts; and how to write user stories and execute Sprint Plans.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

has successfully completed the online, non-credit Professional Certificate

Google Cybersecurity

Those who earn the Google Cybersecurity Certificate have completed eight courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for entry-level roles in cybersecurity. They are competent in beginner-level Python, Linux, SQL, Security Information and Event Management (SIEM) tools, and Intrusion Detection Systems (IDS). They know how to identify common cybersecurity risks, threats, and vulnerabilities, as well as the techniques to mitigate.

has successfully completed the online, non-credit Professional Certificate

AWS Cloud Support Associate

In this certificate, you'll learn about the role of a Cloud Support Associate, a front line expert who adds value by resolving customer issues and optimizing processes. A Cloud Support Associate supports individuals or businesses to migrate their infrastructure and applications to the cloud and offers troubleshooting techniques to resolve their issues. They may also partner with development teams on complex issues, participate in new hiring, write tools/scripts to help the team, or work with leadership on process improvement and strategic initiatives. The AWS Cloud Support Associate Professional Certificate is a thorough seven-course program that will take an aspiring professional to become a successful AWS Cloud Support Associate.
