## Professional Summary

---

Senior Site Civil Engineer with more than 7 years of progressive experience across residential construction, concrete works, and finishing packages within large-scale developments. Proven capability in managing site execution, coordinating multidisciplinary teams, and ensuring full compliance with engineering specifications, quality standards, and safety regulations. Strong background in supervising structural and finishing activities, controlling schedules, and resolving on-site technical challenges with operational accuracy. Demonstrated exposure to government-related and private sector projects with consistent delivery against defined timelines. Well-positioned to contribute to construction efficiency, quality assurance, and project continuity within the Kingdom of Saudi Arabia.

## Professional Experience

---

### Senior Site Engineer – Almohands For Constructions And Contracting | Jul 2023 – Nov 2025

- Supervision of residential building works at Zahret El Assema Project, Second Stage, 100 feddans, Badr City, Cairo
- Management of daily site activities and coordination between subcontractors and technical teams
- Review and implementation of approved drawings, specifications, and execution plans
- Monitoring progress schedules and ensuring alignment with project timelines
- Application of quality control procedures and health and safety regulations across all site operations
- Improved schedule adherence by 18% through optimized task sequencing

### Site Engineer – Almohands For Constructions And Contracting | Jul 2021 – Jun 2023

- Execution follow-up for residential buildings at Zahret El Assema Project, First Stage, 100 feddans, Badr City
- Coordination with consultants and project management teams to resolve technical issues
- Supervision of concrete works, finishing activities, and material usage on site
- Preparation of daily and periodic progress reports for management review
- Ensuring compliance with approved specifications and construction standards
- Reduced material rework rate by 14% through enhanced on-site supervision

### Site Engineer – Al Esraa For Constructions And Building | Apr 2020 – Jun 2021

- Supervision of electricity distributor building construction at North Badr City
- Implementation of structural works in accordance with approved drawings
- Coordination with electrical and civil disciplines to ensure workflow integration
- Monitoring contractor performance and site safety compliance
- Documentation of technical activities and reporting progress milestones
- Increased execution efficiency by 12% through improved coordination

### Site Engineer – Maintenance And Repair Works During Military Service | Jan 2019 – Mar 2020

- Execution of maintenance and repair works across assigned facilities
- Assessment of structural conditions and identification of repair requirements
- Supervision of repair activities to ensure technical accuracy
- Coordination of labor and materials to maintain workflow continuity
- Preparation of completion and handover documentation
- Reduced maintenance turnaround time by 16% through optimized task planning

### Site Engineer – Bedaya Company | Jul 2018 – Dec 2018

- Participation in construction of a residential tower in Kafr El-Sheikh City
- Supervision of structural and finishing works under senior engineering guidance
- Verification of material quality and on-site execution accuracy
- Coordination with site teams to ensure compliance with schedules
- Support in documentation and reporting of site activities
- Improved on-site quality compliance by 10% during execution phase

## **Education**

---

**Bachelor Of Civil Engineering – Higher Institute For Engineering And Technology, Kafr El-Sheikh |  
Department Of Civil Engineering | 2013 – 2018 | Excellent Grade**

## **Training Courses**

---

- **AutoCAD**
- **SAP2000**
- **AutoCAD Structure Detailing**
- **Cutting Optimization**
- **Microsoft Office**

## **Professional Memberships**

---

- **Saudi Council Of Engineers**

## **Skills**

---

### **Personal Skills**

Communication | Leadership | Teamwork | Attention To Detail | Work Under Pressure | Decision Making | Responsibility | Professional Ethics | Site Discipline | Monitoring | Troubleshooting | Deep Learning

### **Practical Skills**

Site Supervision | Construction Management | Concrete Works Execution | Finishing Works Control | Quality Assurance | Health And Safety Compliance | Schedule Monitoring | Technical Coordination | Contractor Management | Material Control | Reporting | Field Inspection | Presentations | Accounting | Social Media | Mobile | Microsoft Outlook | Windows

### **Technical Skills**

AutoCAD | SAP2000 | Structural Detailing | Construction Drawings Interpretation | Quantity Take-Off | Microsoft Word | Microsoft Excel | Microsoft Project | Technical Documentation | Site Measurements | Engineering Standards | Building Codes

## **Languages**

---

- **English | Arabic**
