WORK HISTORY

1-Planning Engineer at TEAM Project SA, Jeddah, KSA.

MAY 2025- DEC 2026

Project: Integrated Industrial Waste Management & Recycling Complex, Yanbu

Responsibilities:

- Assisted in the preparation and review of baseline schedules in Primavera P6 in line with contractual requirements.
- Developed and maintained Work Breakdown Structure (WBS) aligned with project deliverables.
- Coordinated with engineering, procurement, and site teams to define activity sequencing and durations.
- Updated schedules based on actual site progress and forecasted potential delays.
- Prepared weekly and monthly progress reports, including S-curves and look-ahead schedules.

Planning Engineer

- Monitored procurement and subcontractor deliverables to ensure alignment with construction schedules.
- Supported delay analysis, recovery planning, and mitigation measures.
- Participated in client and internal coordination meetings, presenting schedule updates.
- Ensured compliance with project milestones and reporting requirements.

2-Planning Engineer at M/S S.S Malik Enterprises,Karachi,Pakistan.

Jan 2022- Mar 2025

RESPONSIBILITIES

- Assisted in collecting and organizing project scopes, drawings, and specifications for Baseline Schedule development.
- Supported the creation of Work Breakdown Structure (WBS) aligned with project deliverables.
- Collaborated with discipline engineers to define activity durations and sequencing logic.
- Prepared initial draft schedules using Primavera P6 under guidance of Planning Manager.
- Helped in resource loading of schedules including manpower, equipment, and material data.
- Compiled and formatted baseline submission documents including schedule narratives and progress measurement procedures.
- Collaborated with project managers, engineers, and site teams to update schedules based on actual progress and forecast delays.
- Prepared comprehensive progress reports, including S-curves, histograms, and look-ahead schedules to assist in project decision-making.
- Identified project risks and delays proactively, proposed mitigation measures, and contributed to recovery planning efforts.
- Monitored procurement, subcontractor deliverables, and construction activities to ensure alignment with baseline schedules.
- Participated in client and stakeholder meetings, presenting schedule updates, recovery plans, and delay impact analyses.
- Ensured project timelines align with contractual milestones and deliverables.
- Generated look-ahead schedules to help teams focus on short-term targets.
- Analyzed project performance using Earned Value Management (EVM) techniques.
- Helped maintain documentation and supported change management processes.

3- Junior Planning Engineer M/S Solid Construction Pvt Ltd Karachi, Pakistan.

Dec 2019- Dec 2021

RESPONSIBILITIES

- Assisted in developing and maintaining detailed project baseline schedules using tools like Primavera P6.
- Supported senior planners in monitoring project progress and updating timelines accordingly.
- Prepared daily, weekly, and monthly progress reports for management and clients.
- Coordinated with project teams to gather progress data and update the schedule with actuals.
- Participated in planning meetings and contributed to risk assessment and mitigation strategies.
- Assisted in tracking resource allocation and identifying potential bottlenecks.
- Ensured project timelines align with contractual milestones and deliverables.
- Generated look-ahead schedules to help teams focus on short-term targets.
- Analyzed project performance using Earned Value Management (EVM) techniques.
- Helped maintain documentation and supported change management processes.
