SUMMARY

Cybersecurity Specialist with hands-on experience in security operations, systems monitoring, and technical instruction. Proven ability to analyze complex environments, automate workflows, and manage enterprise-level tools. Experienced in delivering technical training and developing full-stack solutions to address technical challenges. Committed to operational excellence, proactive troubleshooting, and delivering secure, high-quality technical results.

WORK EXPERIENCE

Cybersecurity Defense Analyst Intern - SOC L1 06/2025 – 10/2025 | Riyadh, SA
Help AG, an e& Riyadh, SA Enterprise Company

- Monitored and assessed daily security alerts utilizing Splunk SIEM, FortiSOAR, Palo Alto, Fortigate, and EDR/NDR platforms.
- Conducted initial investigations and enriched incidents through IOC analysis, log correlation, and event timeline creation.
- Escalated medium to high-severity alerts to L2/L3 analysts in accordance with SOC playbooks and incident response procedures.
- Managed daily SOC tickets, addressing phishing incidents, malware alerts, suspicious outbound traffic, brute-force attempts, and endpoint alerts in a 24/7 shift-based SOC environment.
- Contributed to weekly and monthly reporting for clients, analyzing KPIs such as alert volume, categories, SLA compliance, and incident trends.

Admin 06/2024 – 05/2025 | Medina, SA
Cybersecurity Club, University of Prince Mugrin

- Directed administrative operations for the Activities section within the Cybersecurity Club at the University of Prince Mugrin, fostering a collaborative environment for members.

CTF Finalist 12/2024 – 12/2024 | Riyadh, SA
Black Hat MEA (2024)

- Competed in the Capture the Flag (CTF) competition at Black Hat Middle East & Africa 2024, successfully qualifying for the final round held in Riyadh.

Course Instructor 09/2023 – 05/2024 | Medina, SA
Abqar Academy

- Facilitated an introductory Ethical Hacking course for university students at Abqar Academy, enhancing their understanding of cybersecurity principles.

EDUCATION

University of Prince Mugrin 2021 – 05/2025 | Medina, Saudi Arabia
Bachelor's Degree, Cyber Security & Forensic Computing

- Cumulative GPA: 3.4/4

PROJECTS

DarkBullk 12/2025
A bulk IP reputation checker powered by AbuseIPDB
Full-stack IP reputation checker that analyzes multiple IPs against AbuseIPDB API. Features bulk checking, sortable results, and CSV export. Built with React, TypeScript, and Node.js.

SKILLS

- log analysis, incident response, Recon, vulnerability scanning, basic network traffic analysis exploitation
- Python scripting, wipe-based coding, developing business-oriented process automation using n8n technical presentations
- Technical Instruction & Academic Support: Delivering complex concepts and guiding practical lab sessions
