Personal Summary

Innovative and detail-oriented CAD Designer with [24] years of experience in creating precise 2D and 3D designs across [specific architectural, civil engineering]. Proficient in AutoCAD, Revit, and other advanced CAD tools, with a strong foundation in engineering principles and project execution. Known for delivering high-quality technical drawings that meet client specifications and comply with industry standards. Skilled in collaborating with multidisciplinary teams, problem-solving design challenges, and streamlining workflows through automation and best practices. Dedicated to ensuring project accuracy, efficiency, and timely delivery. Seeking to contribute expertise to [type of organization, e.g., innovative design firms, construction companies]. Creative Senior CAD Designer with knack for transforming complex concepts into visually compelling and functional designs. Skilled in leveraging cutting-edge CAD software to deliver precise and innovative solutions tailored to project requirements. Strong collaborative abilities, working seamlessly with engineering teams and stakeholders to ensure project success. Brings forward-thinking approach that consistently enhances design processes and outcomes.

Experience

Senior CAD Designer

Gowra Ventures | Secunderabad | October 2014 - Current

- All type of Auto Cad Drawing in 2D,3D & Typical detail drawing
- Visit construction sites to collect measurement and dimensions as needed
- Coordinate with architect team to develop architectural working drawings and instruction to meet client requirements
- Cooperate with management and clients for project review and recommendation
- Review building proposal, Plan and contract and recommend modification or approved the changes

Senior CAD Designer & Site Supervisor

Moghal Constructions | Hyderabad | June 2009 - July 2014

- All type of Auto Cad Drawing in 2D,3D & Typical detail drawing
- Visit construction sites to collect measurement and dimensions as needed
- Manage architect team on daily basis to meet project scope, Timeline and budget
- Provide workload assignment and schedule to the team
- Update clients on the project status, Issues and other necessary aspects on regular basis
- Coordinate with architect team to develop architectural working drawings and instruction to meet client requirements
- Insure to complete project and Documentation within allotted deadline and budget
- Cooperate with management and clients for project review and recommendation
- Review building proposal, Plan and contract and recommend modification or approved the changes
- Approved pay request for vendor, Contractor and consultants after completing the work

Sr. CAD Designer

Riyadh Baladia | Riyadh, Kingdom of Saudi Arabia | September 2005
- November 2008

- All type of AutoCAD Drawing in 2D, 3D & typical detail drawing
- Visit construction sites to collect measurement and dimensions as needed
- Work with architect to ensure that construction project is in accordance with design specification
- Developing from sketches to detailed architectural design works including execution with instructions from Team Leader or Architect
- Working as part of a team of CAD operators reporting directly to the Section Architect and Engineering Manager
- Revision of drawings under the engineer supervision

AutoCAD DRAFTSMAN

A.R.K Consulting & Engineering | Hyderabad | March 2004 - August 2005

- All type of AutoCAD Drawing in 2D, 3D & typical detail drawing
- Create architectural drawing based on building specification, calculations

and sketches

- Visit construction sites to collect measurement and dimensions as needed
- Working independently on given task
- Developed design presentation drawings and documents
- Prepared schedule of drawings, door window schedule, area statements
- Working as part of a team of CAD operators reporting directly to the Section Architect and Engineering Manager
- Assisting senior Architect in developing complex details required to execute work at site
- Preparing As built drawings for consultant approval
- Revision of drawings under the engineer's supervision

Jr.CAD Draftsman

M/s City Builder | Hyderabad | October 1999 - December 2003

- All type of Auto-CAD Drawing in 2D, 3D & Typical Detail Drawing
- Prepare detailed architectural drawing for residential construction projects
- Visit construction sites to collect measurement and dimensions as needed
- Working independently on given task
- Developed design presentation drawings and documents
- Working as part of a team of CAD operators reporting directly to the Section Architect and Engineering Manager
- Preparing As built drawings for consultant approval
- Revision of drawings under the engineer's supervision
