Skilled in site supervision, project planning, and technical office work, with a strong background in quality control and cost management. PMP® certified, proficient in AutoCAD, Civil 3D, and project management software. Committed to delivering high-quality projects on time and within budget.

Professional Experience

Executive Manager – Roads & Infrastructure Maintenance Department
Al-Falah Contracting Company
December 2023 – Present

Work description:

- Working as an Executive Manager for the Qassim–Madinah Road Maintenance Project.
- The project is supervised by the Ministry of Transport and Logistics Services, with a total value of SAR 140 million.
- The project covers a total road length of 240 km between Al-Qassim and Al-Madinah.
- The scope of work includes preventive and corrective maintenance along the entire route.
- The project involves removal of the existing pavement, construction of new base layers and asphalt layers.

Mohamed El-Sayed Hassan Sewelam
Civil Engineer
Egypt . mohamed.sewelam12@gmail.com

- **The works also include maintenance of bridges, culverts, flood channels, and road protection structures.**

Main Responsibilities:

- * Review project contract documents (schedule, design drawings, BOQs, etc.).
- * Conduct site inspections with the consultant as per quality control requirements.
- * Ensure coordination between project teams and solve problems to maintain schedule and quality
- * Prepare road designs, detailed drawings, quantities, invoices, daily/weekly reports, and schedules.
- * Record subcontractor activities and equipment usage.
- * Evaluate and resolve construction issues affecting work quality.
- * Supervise and ensure compliance with material specifications and quality standards agreed with the client and consultant.

Executive Manager – Roads & Infrastructure Department
Al-Salam International Contracting Company
January 2022 – November 2023

Work description:

- **Served as an Executive Manager in a national infrastructure project with a total value of EGP 1.6 billion.**
- **The project was supervised by the Ministry of Transport (General Authority for Roads and Bridges) .**
- **The scope involved the development, expansion, and construction of the Alamein–Wadi El-Natrun Road, with a total length of 25 km.**
- **The main highway was expanded from 3 to 5 traffic lanes in each direction, in addition to constructing a 12-meter-wide, 3-lane service road on each side.**
- **As for the service road, it is a new construction consisting of concrete pavement with a thickness of 30 cm and a width of 12 m.**
- **The project section included the construction of 3 bridges.**
- **It also included the construction of a new emergency hospital within the project area.**

Main Responsibilities:

- * Reviewed project contract documents, including schedules, design drawings, and bills of quantities (BOQs).
- * Coordinated effectively between all project teams and resolved on-site issues to ensure smooth progress according to the approved timeline and quality standards.
- * Prepared detailed road designs, shop drawings, quantity calculations, invoices, daily and weekly reports, and project schedules; monitored production and progress rates.
- * Recorded and monitored the activities of subcontractors, equipment, and survey crews on site; prepared daily site reports.

Mohamed El-Sayed Hassan Sewelam
Civil Engineer
Egypt . mohamed.sewelam12@gmail.com

- *Evaluated and resolved any technical discrepancies or construction issues affecting the quality of work.
- * Verified and approved **material quality** in coordination with the client and the consultant's team.

Technical Office Engineer – Roads & Infrastructure
Al-Salam International Contracting Company
March 2020 – January 2022

Work description:

- **Worked as a Technical Office Engineer and Site Supervisor for the Development and Upgrading of the Truck Road Project in Port Said, commissioned by the North Sinai Reconstruction Authority.**
- **Responsible for all technical office tasks, including project preparation, documentation, and submittals in accordance with the approved schedules.**
- **The project scope included asphalt paving, earthworks with base and sub-base materials, stormwater drainage systems, sewer networks, lighting works, road markings, and landscaping.**

Main Responsibilities:

- * Provided continuous supervision and technical support to ensure quality control and compliance with project specifications and approved materials.
- * Prepared and submitted all payment certificates for approval by the consultant and project owner.
- * Developed detailed designs and shop drawings, performed quantity take-offs, prepared invoices, and generated daily and weekly progress reports, schedules, and production rate analyses.
- * Reviewed and analyzed project contract documents, including schedules, design drawings, and bills of quantities (BOQs).
- * Ensured adherence to construction cost targets through effective communication with project management, subcontractors, and suppliers.
- * Collaborated with the Project Manager and Technical Office Manager to resolve unexpected technical issues and on-site challenges efficiently.

Site Civil Engineer – Roads & Earthworks
Al-Alam Construction & Infrastructure
October 2018 – February 2020

Work description:

- **Worked as a Site Engineer in a Roads and Infrastructure Project in New Giza City, performing full site engineering duties starting from surveying and site preparation activities.**
- **The project scope included asphalt works, curbstone and paving works, earthworks with sub-base and base materials, and rock excavation.**
