## Summary

Backend Developer specializing in PHP and Laravel with solid experience in building, optimizing, and maintaining scalable web applications. Proficient in MVC architecture, MySQL database design, and RESTful API development. Dedicated to delivering high-performance, secure solutions and clean code. Skilled in authentication systems, Git version control, and seamless third-party API integrations.

## Education

**Bachelor's in Computer science and Information Technology, Information System Department – Assiut University** Oct.2021 – Jun.2025

**Graduation Project: Web School Automation using QR code functionality**

The purpose of this document is to provide a detailed description of the School Automation System with QR code functionality.

## Projects

### [LibraryEase](#)

web application for automating book reservations and inventory tracking, featuring social media authentication, Stripe payment integration, and email configuration for secure notifications. Ensures seamless user experience with efficient backend management and robust data handling.

### [Hotel Management System](#)

web application for managing hotel bookings and payments, featuring GitHub OAuth login via Socialite, email verification, and robust backend management with pagination, status filters, and secure data handling. Integrated Sanctum for API authentication and ensured seamless CRUD operations and system reliability.

### [E-Commerce Website](#)

online store with user authentication via Breeze, Stripe payment integration, and order management including invoice generation, validation, and secure database handling. Ensures seamless user experience with robust backend functionality and payment processing.

## Internships & Training

Back-End Web Development - **IdeaSpace & Ministry of Labor** Jan.2025 – Mar.2025

trained at **Assiut Oil Refining Company** Sep.2024 – Oct.2024

## Certificates

PHP with MySQL. Sep 2025

ITI - Android Mobile Development With Kotlin. Sep 2024

CS50's Introduction to programming with Python. Feb2024

## Skills

### Technical Skills

- PHP, Laravel, MySQL
- RESTful APIs
- MVC Architecture
- Object-Oriented Programming (OOP)
- Git & GitHub
- HTML, CSS, JavaScript, Bootstrap

### Programming Languages

- PHP, JavaScript, C++, Java, C#

### Soft Skills

- Teamwork
- Time Management
- Problem Solving

## Languages

**Arabic:** Native

**English:** Intermediate
