 Muhammad Saad

SUMMARY

A results-driven IT professional with 3 years of experience in software development, system design, and problem-solving. Proficient in web development, backend systems, API integration, and database management. Passionate about leveraging technology to optimize performance, automate workflows, and enhance user experiences. Strong team player with expertise in agile development and modern software methodologies.

EDUCATION

BS Information Engineering Technology

 2020 - 2024

Foundation University School Of Science & Technology Islamabad

CGPA 3.3 / 4.0

EXPERIENCE

Software Engineer - AL Mansouryah Co.

 Riyadh KSA  (April 2025 -Present)

Key Responsibilities:

- Developed responsive UIs using React.js, JavaScript (ES6+), and modern CSS frameworks.
- Integrated RESTful APIs using Axios and Fetch, handling real-time data and errors.
- Managed state with React Context API and Redux for scalable, maintainable apps.
- Built and validated forms using Formik and React Hook Form for better UX.
- Deployed production builds via Vite, Webpack, or CRA to Netlify and Vercel.
- Utilized GitHub Copilot to accelerate development and improve code quality through AI-assisted suggestions.

Software Engineer - MaxRemind (Pvt) Limited

 Pakistan  (Aug 2023 - Aug 2024)

Key Responsibilities:

- Reduced client wait times by 43% by developing optimized, responsive MERN stack booking applications.
- Improved application performance by 25% through efficient Redux-based state management.
- Boosted development speed by 30% by integrating scalable UI frameworks like Material UI and Tailwind CSS.
- Increased user satisfaction by 25% by designing and deploying intuitive, user-friendly interfaces using React.js.
- Enhanced backend scalability by 35% by building robust RESTful APIs with Node.js and MongoDB.

Full Stack Developer - CITROK

 Pakistan  (June 2022 - July 2023)

Key Responsibilities:

- Built reusable React components, cutting development time by 20%.
- Deployed 10+ web apps with PHP backend and React frontend, ahead of schedule by 10%.
- Optimized API queries and caching, boosting performance by 15%.
- Integrated RESTful APIs and JWT auth, reducing unauthorized access by 40%.
- Streamlined frontend development with reusable React components, boosting productivity.
- Collaborated with backend teams to implement seamless API integration.
- Accelerated project delivery by optimizing both frontend and backend workflows.
- Enhanced system performance with optimized PHP queries, reducing load times.
- Leveraged GitHub Copilot to automate repetitive coding tasks and improve development efficiency.

SKILLS

- **Soft Skills:** Teamwork | Problem- solving | Communications
- **Programming & Development:** React | Next JS | JavaScript | Node JS | Angular JS | PHP Laravel.
- **Tools & Productivity:** Git | GitHub Copilot | VS Code | Postman
- **Software & System Management:** Linux | Windows Server | CI/CD
- **Cloud & DevOps:** Docker | Kubernetes | AWS.
- **Databases :** MySQL, MongoDB, PostgreSQL
- **Networking & Security:** Firewalls, VPNs, Cybersecurity Best Practices

PROJECTS

AL Aghan Co

 **Live Demo:** [Alaghan](#)

Tech Stack: React JS , JavaScript, HTML, CSS, Material UI, Redux, Animation.

As a Frontend Developer for Alaghann, I crafted a responsive, user-friendly interface that beautifully showcases the diverse equestrian services and products. I ensured seamless navigation and engaging visuals to enhance user experience across all devices.

MEDENG

 **Live Demo:** [MedENG](#)

Tech Stack: React JS , JavaScript, HTML, CSS, Material UI , Redux,

Built a modern, responsive website using React.js and Material UI to showcase medical equipment, streamlining inquiries and enhancing user experience.

AL Mansouryah

 **Live Demo:** [Almansouryah](#)

Tech Stack: React JS , JavaScript , CSS , Redux , Material UI , HTML , Tailwind CSS.

Designed and developed a responsive portfolio website using React.js and Material UI, improving user engagement and increasing online inquiries by 20%.

Tatweer Med

 **Live Demo:** [Tatweer](#)

Tech Stack : React JS , JavaScript, HTML, CSS, Material UI , Redux.

Developed a responsive product showcase website using React.js and Material UI, improving product visibility and simplifying the inquiry process for healthcare clients.

LULUAT AL OMRAN

 **Live Demo:** [Luluat Al Omran](#)

Tech Stack: React JS , JavaScript , CSS , Redux , Material UI , HTML , Tailwind CSS.

Created a responsive real estate website using React.js and Tailwind CSS, enhancing property presentation and boosting client engagement.

MaxRemind

 **Live Demo:** [MaxRemind](#)

Tech Stack: React JS , JavaScript , CSS , Redux , Material UI , HTML , Tailwind CSS.

Developed healthcare billing interfaces using React.js and Web Forms, reducing client wait times by 43% and improving user satisfaction by 25%.

Campus Management System

Tech Stack: PHP , Laravel , JavaScript , HTML , Tailwind CSS , Databases , MySQL

Engineered a web-based system using PHP and MySQL to automate academic tasks, improving efficiency by 40% and reducing data errors by 25%.

MaxCharts Application

 **Live Demo:** [MAXCHART](#)

Tech Stack: React Native.

Developed interactive medical data visualizations using React Native, reducing chart load times by 35% and enhancing mobile user experience.

MediRemote RPM

 **Live Demo:** [MediRemote](#)

Tech Stack: React , Redux , Material UI , JavaScript , HTML , Tailwind CSS.

MediRemote RPM is a healthcare platform at the forefront of Remote Patient Monitoring (RPM) technology. I worked on this project as a frontend developer.

CERTIFICATES

Web Development:

Certified Software Engineer, skilled in application development, system optimization, and IT troubleshooting.

Supervised Industrial Training:

Supervised Industrial Training in Software Engineering, specializing in scalable architecture and security best practices.
