## PROFILE

SCE-Licensed Professional Civil Engineer with over 16 years of experience in delivering and supervising government infrastructure projects in Saudi Arabia, including more than 9 years with the Ministry of Transport and Logistic Services (MOTLS). Officially approved as a Bridge Engineer by MOTLS, with strong expertise in roads, bridges, and projects for local municipalities (Amanat). Demonstrates proven ability in quality control, regulatory compliance, site leadership, and ensuring safe, timely project delivery in accordance with Saudi standards.

## EDUCATION

01-2004 → 06-2009 **Sana'a University**  
Bachelor's Degree of Civil Engineering

## EXPERIENCE

01-2025 → 10-2025 **Rashid Contracting Est.**  
Senior Bridge engineer

**Project:** Completion of the Highway Linking Jubail to Riyadh/Dammam Highway and Dhahran/Bathaa Highway Project – Eastern Province, KSA

**Responsibilities:** Supervision & quality management RC bridges & RCBC supervision, BOQ, BBS, SHOP DRAWINGS.

**Project:** Hofuf / Haradh / Batha / Shaiba Roads Performance Maintenance Project Contract No. (205) Project – Eastern Province, KSA

**Responsibilities:** Supervised inspection, maintenance, and rehabilitation of bridges.

11-2023 → 12-2024 **Abdul-Ali Al Ajmi Co.**  
Senior Bridge Engineer

**Project:** Main Road Project (Group 1) – Jazan Province, KSA

**Scope:** Construction of 2 Concrete Bridges with Precast Prestressed Girders

**Responsibilities:**

- Supervised the construction activities of two reinforced concrete bridges and associated , ensuring compliance with specifications and project timelines.
- Prepared detailed shop drawings and bar bending schedules (BBS) for all substructure and superstructure components of the bridges and other related concrete structures.
- Conducted accurate quantity take-offs, prepared itemized bills of quantities (BOQs), and developed detailed cost breakdowns for bridge elements.
- Managed material procurement by raising purchase requests, and reviewed and approved BBS provided by suppliers for compliance with design and standards.
- Developed as-built drawings and performed final quantity calculations to support project completion and close-out.
- Maintained comprehensive documentation related to project execution, including technical records, reports, and approvals.

07-2021 → 11-2023

**Abdul-Ali Al Ajmi Co.**

Senior Bridge Engineer

**Project:** Completion of the Intersection of Al-Ahsa, Abqaiq, Dhahran, and Abu Hadriyah – Eastern Province, KSA

**Project Value:** SAR 134 Million

**Scope:** Construction of 5 Concrete Bridges with Precast Prestressed Girders

**Responsibilities:**

Supervised the construction of reinforced concrete bridges and reinforced concrete box culverts (RCBC), ensuring quality control and compliance with project specifications.

Prepared comprehensive shop drawings and bar bending schedules (BBS) for all substructure and superstructure elements, including related concrete structures across the project.

Conducted detailed quantity take-offs for bridge components, prepared itemized bills of quantities (BOQs), and ensured accuracy in quantity estimations.

Initiated material purchase requests and reviewed/approved suppliers' BBS for structural compliance and site applicability.

Developed precise as-built drawings and finalized quantity calculations for project handover.

Managed project documentation relevant to the execution phase, including technical records, construction reports, and correspondence.

12-2022 → 01-2023

**Abdul-Ali Al Ajmi Co.**

Senior Bridge Engineer

Senior Bridge engineer for Dhahran-Abqaiq-Hofuf-Khuras Road Performance Maintenance Project, Contract No. (203), Eastern Province

10-2018 → 04-2021

**Al Amr Group Co. For Engineering Consultants**

Senior Bridge Engineer

Bridges projects in the municipality of the province of Hafr Al-Batin – Saudi Arabia

04-2016 → 09-2018

**Al Amr Group Co. For Engineering Consultants**

Site Engineer

Working within the team supervising the construction of the projects of the Ministry of Transport ( The project of completing of Hail/ Rafha Road (intersection) and some intersections in the Northern Border Region (interchanges with pre -stressed concrete bridges "post-tension type") - Saudi Arabia

04-2016 → 11-2016

**Al Amr Group Co. For Engineering Consultants**

Site Engineer

Working within the team supervising the construction of the projects of the Ministry of Transport (The project of construction of the completion of some roads (The Group 7) in the Northern Border Area - Saudi Arabia)

09-2013 → 04-2016

**Al Amr Group Co. For Engineering Consultants**

Site Engineer

Working within the team supervising the construction of the projects of the Ministry of Transport (The project of construction of the double-way of the Mithnab- Um Hazm - Ghat (stage 2) project and completion of some roads in Al-Qassim Area - Saudi Arabia)

09-2012 → 09-2013

**Al Amr Group Co. For Engineering Consultants**

Site Engineer

A project of inventory, documentation, evaluation, and inspection of critical sites in Riyadh (Riyadh Municipality) - Saudi Arabia

01-2011 → 09-2012

**Ministry of Public Works and Roads**

Bridge Engineer

Bridge Engineer in the Department of Bridges and Tunnels of the Ministry of Public Works and Roads -Yemen

04-2011 → 04-2012

**Ministry of Public Works and Roads**

Resident Engineer

Resident engineer to supervise the construction of bridge protection and road expansion works in the Khamis Bani Saad Bridge project Al-Mahwit Governorate-Yemen

04-2010 → 01-2011

**General Corporation of Roads and Bridges**

Bridges Engineer

Site Engineer in the construction of the bridges project, Al-Anad Al-Huta Road - Lahj Governorate (Al-Anad Bridge-1, Al-Anad Bridge -2)-Yemen

12-2009 → 05-2010

**General Corporation of Roads and Bridges**

Bridge Designer

Structural design engineer in concrete bridges - Yemen

10-2009 → 12-2009

**General Corporation of Roads and Bridges**

Site Engineer

Site Engineer in the construction of the 29-km bridge of the Abs al-Mahabsha Road Hajjah Governorate-Yemen
