## Site Civil Engineer

+966 558164760 | am4198956@gmail.com | Riyadh, Saudi Arabia

### SUMMARY

Site Civil Engineer with over 3 years of hands-on experience in infrastructure and utilities projects, specializing in sewage networks, stormwater drainage, potable water systems, fire-fighting networks, and irrigation works. Proven expertise in site supervision, technical coordination, QA/QC implementation, and ensuring compliance with approved drawings, specifications, and HSE standards. Experienced in delivering large-scale developments including Madinaty, Noor Smart City, Rapid Transit Stations, and MODON Industrial Cities projects in Saudi Arabia. Highly adaptable, detail-oriented, and ready for immediate mobilization across all KSA regions, with a strong ability to collaborate with consultants, contractors, and multidisciplinary teams to achieve project objectives efficiently.

### WORK EXPERIENCE

#### Site Civil Engineer

Jan 2025 – Present

##### Sada Al-Engaz Company | Riyadh, Saudi Arabia

- **Project:** Industrial Cities Infrastructure Project
- **Client (Owner):** Saudi Authority for Industrial Cities and Technology Zones (MODON)
- **Main Contractor:** Al-Omeer Company
- **Responsibilities:**
  - Lead on-site supervision for infrastructure works including sewage networks, stormwater drainage systems, potable water supply, firefighting networks, and irrigation systems.
  - Ensure execution aligns with approved IFC drawings, shop drawings, technical specifications, and contract requirements.
  - Coordinate daily activities with consultants, subcontractors, surveyors, and suppliers to maintain progress and resolve technical challenges.
  - Monitor construction sequences including excavation, shoring, pipe laying, jointing, testing, backfilling, compaction, and reinstatement works.
  - Enforce QA/QC procedures, inspection checklists, and method statements to ensure compliance with project quality standards.
  - Implement and monitor HSE policies, conducting toolbox talks and ensuring safe work practices on site.
  - Prepare daily, weekly, and monthly progress reports, material approvals, and technical documentation.
  - Support planning teams by tracking progress against schedules and reporting delays or risks.

#### Site Civil Engineer

Aug 2022 – Dec 2024

##### Talaat Mostafa Group | Egypt

- **Projects:** Noor Smart City, Madinaty, Rapid Transit Stations – Egypt
- **Responsibilities:**
  - Supervised execution of large-scale infrastructure utilities including sanitary sewer systems, stormwater drainage, rainwater management, potable water networks, and firefighting systems.
  - Reviewed design drawings, shop drawings, method statements, and material submittals to ensure compliance with project and authority standards.
  - Managed site activities related to excavation, bedding, pipe installation, manholes, chambers, thrust blocks, concrete works, backfilling, and compaction.
  - Conducted site inspections, snag lists, and punch lists, ensuring timely closure of non-conformities.
  - Coordinated closely with consultants, subcontractors, and utility authorities to resolve clashes and technical issues.
  - Performed quantity take-offs, BOQ verification, and measurement sheets for executed works.
  - Ensured full compliance with QA/QC, HSE regulations, and project timelines, contributing to successful handover of infrastructure packages.

### EDUCATION

#### Bachelor of Civil Engineering

- Helwan University – Cairo, Egypt | 2017 – 2022
- **Grade:** Good

## TRAINING & INTERNSHIPS

### Talaat Mostafa Group

- Execution of Reinforced Concrete Structures — Jun 2022 – Jul 2022
- Execution of Reinforced Concrete Structures — Jun 2021 – Jul 2021

### Arab Contractors

- Execution of Reinforced Concrete Structures — Jun 2020 – Jul 2020
  - Execution of Reinforced Concrete Structures — Jun 2019 – Jul 2019
  - Design of Reinforced Concrete Structures (Drawings, Analysis Software, Calculation Notes) — Jun 2018 – Jul 2018
- 

## SKILLS

- Infrastructure Engineering
  - Sewage Networks
  - Stormwater Drainage Systems
  - Potable Water Networks
  - Firefighting Systems
  - Irrigation Networks
  - Site Supervision
  - Construction Execution
  - Technical Coordination
  - QA/QC Implementation
  - HSE Compliance
  - Quantity Take-Offs
  - AutoCAD
  - Civil 3D
  - Technical Reporting
  - Project Coordination
  - Utility Installation
  - As-Built Drawings
- 

## LANGUAGES

- Arabic: Native
- English: Good
