Cover Letter

Dear Sir/Madam,

I am delighted to express my interest in joining your Organization. With a Bachelor's degree in Mechanical Engineering and over seven years of extensive experience in QA/QC roles within the Construction & Consultant Industry, I am confident in my ability to contribute effectively to your team and help achieve your project's quality and safety goals.

In my current role at Saudi Emar Company, I have been responsible for overseeing the mechanical scope of work, preparing necessary documentation, and ensuring strict adherence to quality standards. My role involves close coordination with contractors, meticulous monitoring of site activities, and the implementation of corrective actions for any quality standard violations. My attention to detail and commitment to maintaining high-quality standards have significantly reduced rework and ensured the timely delivery of projects.

At **Dar Al Handasah consultant** I successfully managed the quality records and documentation for the construction of a **KAFD CLUSTER CP04 CONSTRUCTION**. My responsibilities included reviewing material quality, managing work methods, and providing technical input to resolve discipline-related issues. My proactive approach and problem-solving skills have been instrumental in maintaining compliance with project specifications and international standards.

My experience at ARKADA Construction Company and Gulf Riyadh Contracting Co. Ltd further honed my skills in MEP installations, inspections, and quality control. I have consistently demonstrated my ability to ensure compliance with project requirements, prepare detailed inspection reports, and manage documentation accurately. My technical expertise in HVAC systems, fire protection, piping, and mechanical services, combined with my ability to coordinate with multidisciplinary teams, makes me a valuable asset to any project.

## Key Skills:

- Proficient in HVAC system design and installation
- Expertise in fire protection systems (Sprinkler System, Foam & Novec 1230)
- Strong knowledge of piping installation (RTR, HDPE, GRP, PVC & UPVC)
- Comprehensive understanding of NFPA & Aramco standards
- Excellent project management and problem-solving skills
- Proficient in CAD and MS Office

I am highly motivated, responsible, and thrive under pressure. My strong communication skills enable me to interact effectively with diverse teams and stakeholders. I am committed to continuous improvement and professional development, always seeking to enhance my skills and knowledge in the field.

I am excited about the opportunity to bring my expertise to your Organization and contribute to your ongoing success. I look forward to the possibility of discussing how my background, skills, and certifications align with your needs in more detail. Thank you for considering my application.

Sincerely,

**Muhammad Ibrahim Habib**

## ABOUT ME

Experienced Mechanical Engineer with over 07 years Plus of extensive experience in QA/QC roles within the Construction Industry. Proficient in overseeing complex mechanical installations, ensuring adherence to quality standards, and conducting detailed inspections. Demonstrated expertise in HVAC systems, fire protection, piping, and MEP services, with a strong background in both site supervision and project management. Adept at coordinating with multidisciplinary teams to achieve project goals and maintain compliance with safety and quality regulations. Committed to continuous improvement, problem-solving, and delivering high-quality results under pressure. Bilingual in English and Arabic, with strong communication and technical skills.

## EDUCATION & TRAINING

### Bachelor of Mechanical Engineering

*Sarhad University of Science and Technology (Peshawar, Pakistan)*

### HVAC Designing Certificate Course

### Piping Designing Certificate Course

## WORK EXPERIENCE

PROJECT:CONSTRUCTION QURIYANH SUBSTATION JEDDAH

QA/QC Mechanical Engineer | 2024 – Present CLIENT:SAUDI ELECTRICITY COMPANY (SEC)

### *Saudi Emar Company (Saudi Arabia)*

- Issue non-conformance reports to the construction team for any quality standard violations.
- Verify corrective actions to any quality standard violations and ensure conformity with quality requirements.
- Conduct material receiving inspections of mechanical equipment such as AHUs, ACCUs, Exhaust Fans, Metal Ducts, Air Terminal Devices, Fire Dampers, Volume Dampers, Pipes, Fittings, and Fire Fighting Equipment.
- Responsible for cross-checking all the P&ID package drawings, layout drawings and SLD of all the MEP systems as received from our CLIENT design team as per the site requirement before sharing with the client and contractor
- Responsible for coordination with clients as well as with the main contractor for any queries related to the project. Responsible for reviewing Heat load calculation, CHW piping calculation, ducting calculation, pump head calculation and equipment selections as per the project requirement and the client approval.
- Responsible for the overall MEP project locally and coordinated with our client team for any query related to project. ▪ Issuing internal nonconformance report (INCR) to the construction team if any violation of quality standards, while ensuring execution of corrective actions within the agreed completion date. Liaising with the site construction team to avoid violation

QA/QC Mechanical Engineer | 2022 – 2024 Company:*Dar Al Handasah*

*Consultant Project:KAJD CLUSTER CP04 CONSTRUCTION*

- Ensure compliance with Inspection and Test Plans (ITPs) for all pipeline and road activities.
- Check materials (pipes, valves, asphalt, aggregates, etc.) upon delivery to confirm they meet approved specifications.
- Ensure all works are executed in line with approved drawings, specifications, and method statements.
- Review project specifications, drawings, and scope of work for all road and pipeline utilities. Prepare work schedules, manpower, equipment, and material requirements.
- Manage work methods and maintain knowledge of all quality assurance standards and applications.
- Recommend corrective actions for all processes that do not meet quality standards.
- Conduct inspections and prepare reports for deficiencies found at the site.
- Provide technical input to resolve any discipline-related issues.

## **MEP QC Inspector Engineer | 2020 – 2022**

**ARKADA Construction Company (Riyadh, Saudi Arabia)**

**Project:** King Abdullah Financial District, Parcel # 4.05.

- Oversee installation as per design of all MEP QA/QC work.
- Inspect and test all electrical/mechanical equipment, fittings, and work implementations as per specifications.
- Witness and sentence all site inspections within mechanical disciplines.
- Ensure the accuracy of all inspection reports and attached documents.
- Manage documentation status and ensure compliance with project requirements.
- Coordinate with consultants to ensure all site activities meet specified quality standards.
- Conduct inspections and prepare detailed reports for any deficiencies found at the site.

## **Quality Control Mechanical Inspector | 2019 – 2020**

**Gulf Riyadh Contracting Co. Ltd (Riyadh, Saudi Arabia)**

**PROJECT:DARAYAH HOUSEING SOCIETY RIYADH**

- Conduct inspections on site in accordance with discipline-related inspections and test plans (ITPs).
- Attend inspection requests (IRs) submitted by sub-contractors and take appropriate actions.
- Review submitted shop drawings against contract drawings, specifications, and local codes.
- Prepare surveillance reports for deficiencies found at the site and provide technical input to resolve issues.
- Ensure compliance with quality standards and project specifications.
- Conduct material inspections and ensure proper documentation.
- Provide technical support and coordination for all mechanical-related activities.

## **Mechanical QC Engineer | 2018 – 2019**

**China Petroleum Engineering and Construction Company (Abu Dhabi UAE)**

- Oversee installation of centrifugal pumps and conduct pressure testing.
- Inspect welding joints and provide technical support to the team.
- Conduct material receiving inspections, in-process inspections, and final inspections of mechanical and process equipment, piping, and structures.
- Coordinate MEP services and ensure the quality of work.
- Prepare daily QC reports and manage mechanical inspection test plans (ITPs).
- Conduct pre-commissioning of HVAC systems and accessories.
- Supervise the installation and commissioning of fire piping, mechanical equipment, and other related services.

## **CERTIFICATIONS**

---

- ISO 9001:2015 **LEAD AUDITOR** (QUALITY MANAGEMENT)
- LEAN SIX SIGMA BLACK BELT(GREEN AND WHITE BELT)
- NEBOSH IGC
- **NDT LEVEL 2(MT,UT,PT & RT)** CERTIFICATION

## **ACHIEVEMENTS & AWARDS**

---

- Have participated in science exhibition and got first prize in school level.
- PEC membership
- ADNOC WMS Training.
