PROFESSIONAL SUMMARY

A motivated Architecture graduate with one year of hands-on experience in architectural design and site supervision in both Saudi Arabia and Yemen. Passionate about creating sustainable and creative design solutions, with strong skills in project implementation and coordination. I have also developed several academic projects that reflect my ability to combine aesthetics with functionality. I am seeking an opportunity within a professional architectural firm where I can further develop my technical and creative expertise, contribute innovative ideas, and grow as part of a dynamic team.
