

ABDUL GHAFOOR

Sr. QA/QC Manager

Saudi ARAMCO, SABIC, NEOM Approved

Saudi Council of Engineer ID # 956711

American Society for Quality ASQ #200172843.

ISO 9001:2015 QMS Lead Auditor IRCA Approved

ISO 45001: 2018 Lead Auditor OH&SMS

(Occupational Health & Safety Management System

Membr of Chartered Quality Professional

(CQP MCQI) # 6185359

+966 54 9030914

aghafoor540@gmail.com

NEOM, Tabuk Region, KSA

Valid & Transferable Iqama

Driving License Valid for KSA

PROFILE SUMMARY

A broad knowledge and extensive experience in Quality and Project Management, extending more than **16 Years** of professional working experience as a **Sr. QA/QC Manager / Quality Professional** on various project delivery partners construction organization, particularly expertise in execution and delivery of Substructure, Superstructure, Infrastructural, Landscaping, Geotechnical & Marine Projects, from the excavation to finishes, with an emphasis of monitoring and training the subordinates for Inspections, auditing, testing/commissioning, and implementation of project specification, codes and standard requirements. I possess adequate experience needed for implementation and execution of tasks required in promoting services that will correlate in obtaining common company objectives of providing quality output in all aspects of work.

KEY OBJECTIVES

- To pursue a challenging engineering / management position in reputable organization that will enable me to exhibit skills, commensurate my education and experience, eventually.
- Becoming an asset to the organization. To make a career assignment with an institution of repute as an active employee.

EDUCATION QUALIFICATION

Master In Civil Engineering (MSc) from Western University of Miami- US

- **Bachelor in GEOTECHHNICAL Studies (BS - 4 Years, GEOLOGY)** 2004 - 2008
University of Peshawar, Pakistan

- **Diploma in Construction Materials Testing (Soil, Concrete and Asphalt)** CTTI Islamabad, Pakistan

PUBLICATION / NATIONAL RESEARCH PAPER

- Petrography of Sandstone of Lumshiwai Formation in the Samana Range, Hangu, N.W.F.P., Pakistan, Implication for Provenance, Diagenesis and Environment of Deposition, PJHR (Pakistan Journal of Hydrocarbon Research- 2009).

CERTIFICATES & MEMBERSHIP

- ISO 9001:2015 QMS Auditor / Lead Auditor TUV Austria Romania 2022
- Lean Six Sigma Green Belt (LSSG) Canadian Institute of Organizational Excellence
- ISO 45001: 2018 Lead Auditor OH&SMS (Occupational Health & Safety Management System)
- Saudi Council of Engineers Membership # 956711
- American Society for Quality ASQ #200172843.
- Membr of Charted Quality Professional (CQP MCQI) # 6185359
- Member of Saudi Quality Council # 18973
- PMI-RMP Certificate # 3989289
- Leadership in Energy and Environmental Design LEED from Saudi Council of Engineer

CLIENT APPROVALS

- NEOM – THE LINE
- BECHTEL-NEOM
- Trojena-NEOM
- Pan Asia Gulf.
- Petrofac
- Saudi ARAMCO / SABIC / SWCC
- Air Products UK / SK & C / Al Reef Sugar
- Outotec Finland / BACS (RMP)
- Roughton International /
- OGDCL- Oil & Gas Development Corporation- Pakistan

KEY SKILLS

- Quality Management Foundations
- Quality Manual & Handover Management
- Excellent written and verbal communication
- Team leader, self-confident, consistence to work and workplace relationships.
- Good decision making & analytical skills.
- Excellent organization and time management
- Comprehensive problem-solving abilities
- Punctual, easily adaptive & construction safety
- Project controls overview
- Quality management system (QMS)
- Project risk and mitigation plan
- Project quality plan (PQP)
- Key performance Indicator (KPI)
- Inspection testing plan (ITP)
- Method statement (MS)
- Aconex, Procore, BIM 360, GIS & Enablon
- Microsoft Office
- Auto-Cad 2D & 3D
- Lead Auditor

EMPLOYMENT HISTORY / PROFESSIONAL EXPERIENCE

Dec 2023 to till date

Current Employer **Al Osais Contracting Co.** Jan 2023 to till date

4200000047/ The Line-Main Piling Works Substructure, NEOM - KSA

Employer: Al Osais Contracting Co.
Client: NEOM / Delivery Partners
Designation: QA/QC Manager

Scope of Work: WO-05 & WO-07.

Piling Works & Pile Testing Works Module 46. Piles having diameter of 1500mm to a maximum depth of 30m and 2500mm to a maximum depth of 70m in the North and South Blades.

Responsibilities:

- Preparation and Review of technical submittals, such as Project ITP's, PQP, Method Statements, Material Submittals, Supplier's Pre-qualification and procedures etc.
- Responsible for Internal/External Audits and follow up for the deficiencies identified as a result of project quality audit and surveillance activities.
- Monitor and oversight Quality Management System (QMS) implementation during execution work and reporting weekly and monthly.
- Quality procedures, inspection and reports review of Caliper Logging Test, Bidirectional (O-Cell) Static Load Test, Pile Integrity Test, Cross Hole Sonic Logging Test.
- Conduct regular audits and assessments of project activities, materials and workmanship to assess project quality and identify areas for improvements.
- Review shop drawings as per the approved Design and project specifications to validate the drawings to be executed accordingly for the site works.
- Facilitate quality training and awareness programs for the project team members, promoting a culture of excellence, continuous improvements, and customer satisfaction.
- Stay current with industry trends, best practices, technological advancements in quality management, incorporating new methodologies and tools into project delivery processes.
- Provide input to the project reviews and ensure Quality aspects are covered.
- Ensuring the compliance with all contractual, company and local authority's requirements for Quality, Health Safety and Environment requirements.
- Prepare where necessary, statistical data which will show quality trends for management review meeting.
- Assist Junior Engineers for Attending inspections WIR (Work Inspection Request), MIR (Material Inspection Request) of all aspects for project execution.
- Monitor and assess project risk and mitigation throughout the project lifecycle, proactively addressing potential issues to prevent scope and quality deviation.
- Communicate project risk and mitigation plan to project stakeholders and management.
- Attending Bi-Weekly Meetings with the Clients to discuss the work progress and the related quality issues and provide the suggestions to trouble shoot the issues.
- Preparation and Review of Concrete Mix Design and Asphalt Job Mix Formulae for the different grades of Concrete & Asphalt required as per the project specifications and follow up and attend the related trial mixes accordingly with the Junior Engineers, the approved third party, and client representative.
- Perform Project QMS indoctrination, orientation, and awareness sessions, for subordinates and new join employees as applicable.
- Review and validate the material test reports in accordance with project specification and construction codes prior to using the material at project sites.
- Monitoring and supervising work qualitatively and assessing the safety at site including health and environmental issues, ensuring to achieved as per project requirements and specification.
- Preparation of general surveillance report for the deficiencies of work found at site and Issue Non-Conformance Report (NCR), Site Observation, Site Instructions to the project execution team and follow up for the quality deviation and closeout.
- Collaborate with project teams to address quality issues, deviation and NCRs in timely.
- Provide 'day to day' support and advice to the project team regarding the implementation of the project quality requirements / management system arrangements
- Maintaining Project agreed KPIs on a daily, weekly & monthly basis PQI.
- Develop and optimize assembly quality workforce to maximize efficiency and productivity.
- Enforce and adhere to HSE protocol and guidelines on the project.

Sep 2023 to Dec 2023

SITE PREPARATION. Excavation, Hording, Probing, Grouting Works for Dammam Stadium Project – Saudi Aramco

Employer: Al Osais Contracting Co.
Client: Saudi Aramco
Designation: QA/QC Manager

Scope of Work:

Hoarding, Lighting, Access Road, Rough Excavation, Probing & Grouting, and Site Clearing.

Responsibilities:

- Preparation and Review of technical submittals, such as Project ITP's, PQP, Method Statements, Material Submittals, Supplier's Pre-qualification and procedures etc.
- Monitor and oversight Quality Management System (QMS) implementation during execution work and reporting weekly and monthly.
- Monitor and assess project risk and mitigation throughout the project lifecycle, proactively addressing potential issues to prevent scope and quality deviation.
- Communicate project risk and mitigation plan to project stakeholders and management.
- Attending Bi-Weekly Meetings with the Clients to discuss the work progress and the related quality issues and provide the suggestions to trouble shoot the issues.
- Preparation of general surveillance report for the deficiencies of work found at site and Issue Non-Conformance Report (NCR), Site Observation, Site Instructions to the project execution team and follow up for the quality deviation and closeout.
- Provide 'day to day' support and advice to the project team regarding the implementation of the project quality requirements / management system arrangements.
- Preparation and Review of Concrete Mix Design and Asphalt Job Mix Formulae for the different grades of Concrete & Asphalt required as per the project specifications and follow up and attend the related trial mixes accordingly with the Junior Engineers, the approved third party, and client representative.
- Conduct regular audits and assessments of project activities, materials and workmanship to assess project quality and identify areas for improvements.
- Perform Project QMS indoctrination, orientation, and awareness sessions, for subordinates and new join employees as applicable.
- Assist Junior Engineers for Attending inspections WIR (Work Inspection Request), MIR (Material Inspection Request) of all aspects for project execution.

Jan 2023 to Aug 2023

420000047 The Line-Main Piling Works Substructure, NEOM - KSA

Employer: Al Osais Contracting Co.
Client: NEOM / Delivery Partners
Designation: QA/QC Manager

Scope of Work:

Piling Works & Pile Testing Works in the Northwest corner of module 40 and 43 with 526 piles with a diameter of 1500mm (486 No) to a maximum depth of 44m and 2500mm (50 No) to a maximum depth of 55m in the North and South Blades.

Responsibilities:

- Preparation and Review of technical submittals, such as Project ITP's, PQP, Method Statements, Material Submittals, Supplier's Pre-qualification and procedures etc.
- Quality procedures, inspection and reports review of Caliper Logging Test, Bidirectional (O-Cell) Static Load Test, Pile Integrity Test, Cross Hole Sonic Logging Test.
- Responsible for Internal/External Audits and follow up for the deficiencies identified as a result of project quality audit and surveillance activities.
- Preparation of general surveillance report for the deficiencies of work found at site and Issue Non-Conformance Report (NCR), Site Observation, Site Instructions to the project execution team and follow up for the quality deviation and closeout.
- Stay current with industry trends, best practices, technological advancements in quality management, incorporating new methodologies and tools into project delivery processes.
- Monitor and assess project risk and mitigation throughout the project lifecycle, proactively addressing potential issues to prevent scope and quality deviation.
- Communicate project risk and mitigation plan to project stakeholders and management.

July 2022 to Dec 2023

- Facilitate quality training and awareness programs for the project team members, promoting a culture of excellence, continuous improvements, and customer satisfaction.
- Preparation and Review of Concrete Mix Design and Asphalt Job Mix Formulae for the different grades of Concrete & Asphalt required as per the project specifications and follow up and attend the related trial mixes accordingly with the Junior Engineers, the approved third party, and client representative.
- Assist Junior Engineers for Attending inspections WIR (Work Inspection Request), MIR (Material Inspection Request) of all aspects for project execution.
- Attending Bi-Weekly Meetings with the Clients to discuss the work progress and the related quality issues and provide the suggestions to trouble shoot the issues.
- Collaborate with project teams to address quality issues, deviation and NCRs in timely.
- Provide 'day to day' support and advice to the project team regarding the implementation of the project quality requirements / management system arrangements
- Maintaining Project agreed KPIs on a daily, weekly & monthly basis PQI.
- Monitor and oversight Quality Management System (QMS) implementation during execution work and reporting weekly and monthly.

NEOM Mountain The Scoop Vault Excavation, NEOM KSA

Employer: Al Ayuni Investment & Contracting Company
Client: NEOM/AECOM/JACOBS.
Designation: QA/QC Manager

Responsibilities:

- Responsible for all quality testing and quality control activities.
- Preparation and Review of technical submittals, such as Project ITP's, PQP, Method Statements, Material Submittals, Supplier's Pre-qualification and procedures etc.
- Attend management review meetings weekly and monthly basis.
- Preparation of general surveillance report for the deficiencies of work found at site and Issue Non-Conformance Report (NCR), Site Observation, Site Instructions to the project execution team and follow up for the quality deviation and closeout.
- Responsible for Internal/External Audits and follow up for the deficiencies identified as a result of project quality audit and surveillance activities.
- Preparation and Review of Concrete Mix Design and Asphalt Job Mix Formulae for the different grades of Concrete & Asphalt required as per the project specifications and follow up and attend the related trial mixes accordingly with the Junior Engineers, the approved third party, and client representative.
- Perform Project QMS indoctrination, orientation, and awareness sessions, for subordinates and new join employees as applicable.
- Monitor and assess project risk and mitigation throughout the project lifecycle, proactively addressing potential issues to prevent scope and quality deviation.
- Communicate project risk and mitigation plan to project stakeholders and management.
- Preparation of weekly and monthly quality reports to submit to client.

Aug 2021 to Jul 2022

SITE PREPARATION. TEMPORARY ACCESS ROAD- PROJECT WO- 05 and WO-10 Infrastructure, Spine NEOM KSA

Employer: Al Ayuni Investment & Contracting Company
Client: NEOM/BECHTEL
Designation: QA/QC Manager

Scope of Work Includes:

Earth Works, Excavation & Backfilling, Road Pavement, Guard Rails and NJB Installation, Box Culverts construction, Electrical Solar System Installation, Slope Protection and Informative and Directional Signage Installation.

Responsibilities:

- Responsible for all quality testing and quality control activities.
- Preparation and Review of technical submittals, such as Project ITP's, PQP, Method Statements, Material Submittals, Supplier's Pre-qualification and procedures etc.
- Attend management review meetings weekly and monthly basis.
- Carry out internal Audits follow up for the deficiencies identified as a result of project quality audit and surveillance activities.
- Attended Client Quality Audit for WO-005 from NEOM ESTD.

- Review and validate the material test reports in accordance with project specification and construction codes prior to using the material at project sites.
- Project has 11 Box Culverts Construction, and 10Km Dual Carriage way Road with time duration of only 3 Months.
- Involved in preparation of JMF for BWC.
- Involved in Mix Design of concrete for different activities C35 & C15 as per project specifications.
- Control & Closure of NCRs and Observation up to client satisfaction.
- Preparation of PQI and KPI.
- Stay current with industry trends, best practices, technological advancements in quality management, incorporating new methodologies and tools into project delivery processes.
- Snagging/ Punch Items with NEOM/BECHTEL for final handing over of Project.
- Preparation of weekly and monthly quality reports to submit to client.

Stone column/Ground Improvement Works. Nano Filtration Plant. RO-04 SWCC Shuaiba Project

Employer: Ground Engineering Contractor (GEC)
 Client: WETICO/SWCC
 Designation: Project Manager

Responsibilities:

- Safe Execution of stone column works.
- Collaborate with client and other stakeholders to define project goals and objectives.
- Monitor progress, ensuring compliance with timelines, specifications and scope.
- Oversee project quality control and ensuing adherence to safety standards.
- Provide technical guidance and support to project team.
- Performed zone load test, SPT and Pre & Post CPTs
- Attend all management meetings with SWCC and WETICO weekly and monthly basis.
- Prepare and present project reports to the stakeholders.

Geotechnical Investigation & Topographic Survey Works RO-04 SWCC Shuqaiq-Jizan

Employer: Ground Engineering Contractor (GEC)
 Client: ACCIONA/SWCC
 Designation: Site Manager

- Responsible for Site activities.
- Geo logging reports for strata identification of 12 No's bore hole.
- Collection of soil Sample, UDS and SPT sample.
- Performed 81 No's of CPT test with CPT truck.
- Performed 44 No's DPT test.
- Topographic Survey of the Plant Area, Access Road and Water line.
- Installed 4 No's of Benchmark.
- Installed 12 No's of Piezometers for water Level Monitoring Purpose.
- Oversee project quality control and ensuing adherence to safety standards.
- Collaborate with client and other stakeholders to define project goals and objectives.
- Monitor progress, ensuring compliance with timelines, specifications and scope.
- Prepare and present project reports to the stakeholders and management.

PAN Asia Petrochemical and Fiber Integrated Project Jazan, KSA

Employer: Ground Engineering Contractor (GEC)
 Client: PAN Asia
 Designation: Project Manager

- Responsible for Management of the Company, operating for this project field of activities includes.
- Oversee all aspects of the project lifecycle, from pre-construction planning and design to construction execution, commissioning and handing over.
- Planning and Scheduling Bored Piling, dewatering, Pile head breaking, and Pile testing works and Construction of foundation. (Civil Works).
- In charge for execution of all piling Works.

Apr 2021- Jul 2021

Feb 2021 - Mar 2021

Sept 2019 - Dec 2020

Dec 2017 – Sep 2019

- Planning and Scheduling Bored Piling, dewatering, Pile head breaking, and Pile testing works and Construction of foundation. (Civil Works)
- Monitor progress, ensuring compliance with timelines, specifications and scope.
- Prepare and present project reports to the stakeholders and management.
- Identify potential risks and issues that may impact project success and develop mitigation, implementing corrective actions as needed.
- Oversee project quality control and ensuing adherence to safety standards.
- Provide regular project updates to senior management and stakeholders.
- Motivate the team of professionals including “engineers, and support staff”
- to achieve project objectives in time with quality and safety.
- Monitor project progress and adjust as necessary to ensure successful project delivery.
- Facilitate regular project meetings and ensure clear communication between all parties involved.

SABIC Jubail Main Building & Global Data Center (SJMB & GDC) - Bored Piling with CP (Cathodic Protection) installed system.

Employer: Ground Engineering Contractor (GEC)
Client: SABIC/Shapoorji Pallonji
Designation: QA/QC Manager, Deputy Project Manager

Responsibilities:

- QA/QC procedures and office documentation Preparation and Review of technical submittals, such as Project ITP's, PQP, Method Statements, Material Submittals, Supplier's Pre-qualification and procedures etc.
- Preparation of general surveillance report for the deficiencies of work found at site and Issue Non-Conformance Report (NCR), Site Observation, Site Instructions to the project execution team and follow up for the quality deviation and closeout.
- Responsible for Internal/External Audits and follow up for the deficiencies identified as a result of project quality audit and surveillance activities.
- Stay current with industry trends, best practices, technological advancements in quality management, incorporating new methodologies and tools into project delivery processes.
- Attend management review meetings weekly and monthly basis.
- Caliper Logging Test, Bentonite Testing, Full Scale Load Test, Lateral Load Test, Bidirectional Static Load Test, Pile integrity test, cross hole sonic test, sheet piles, Excavation, pile head breaking and repairing works
- Performed Compression Load test @ 3000 TON by Kent ledge Method, One of its types in KSA.
- Carry out 41 instrumented Compression Load Test ranges from 450 TON To 2700 Tons by Kent ledge Method 13 Lateral Load Test 6 Tension load Test
- Carry out 890 Cross Hole Sonic Logging & Caliper Logging Tests.

Riyadh Metro Project, Line 1 Phase 1 Station 1D2, 1E2, 1D5, 1B1 & 1C3- Bored Pile Works. Soil Investigation Works, Grouting Works, Augering for King Post Drilling for Well Installation, Anchor Installation, Testing Works (Pumping Test) related to Well and Piezometer of the Aquifer & Dewatering Works.

Employer: Ground Engineering Contractor (GEC)
Client: Al Riyadh Development Authority / BACS Consortium
Designation: Geo tech and Field Engineer

Responsibilities:

- Conduct and attend Management Meeting with BACS.
- Monitor and assess project risk and mitigation throughout the project lifecycle, proactively addressing potential issues to prevent scope and quality deviation.
- Communicate project risk and mitigation plan to project stakeholders and management.
- Attending Bi-Weekly Meetings with the Clients to discuss the work progress and the related quality issues and provide the suggestions to trouble shoot the issues.
- Preparation of weekly and monthly reports to submit to client.
- Monitoring Grouting works for different Metro Station using mix
- design of M3 for Primary Boreholes and M2 for Secondary Boreholes.

Dec 2015 - Mar 2017

- Carrying out of field tests related to Grout Mix i.e. Viscosity, density, Temperature and specific Gravity.
- Carried out Pre & Post Grout Pumping Tests of the Aquifer treated with grout for Stations 1D5, 1E2 and 1B1.
- Developed Dewatering System for Stations 1D5, 1E2 and 1B1.
- Prepared borehole Log during Well Drilling for Dewatering Purpose and during soil investigation at particular stations.
- Control all the Documents related to the Inspections.
- Ensure the full implementation of Project ITP.
- Control of NCR and LBEs and Improvement Reports.

Oct 2015 To April 2015

Jazan IGCC Air Separation Unit (ASU), EPC-03, Bored Pilling & CFA Pilling Works Trial Area

Employer: Ground Engineering Contractor (GEC)

Client: Saudi ARAMCO / Air Products PLC UK

Designation: QC Manager – Civil

Responsibilities:

- Carried out survey of various Concrete batching plants with client & consultant.
- Carried out trial mixes for various Mix designs.
- Attend quality control and progress meetings with client.
- Carried out full scale compression, tension and lateral Load test on trial piles.
- Prepared ITPs for Project, Initial Survey of Batching Plant.
- Review of Concrete Mix Design of 4000 & 5000 psi Strength.
- Develop Concrete Mix Design for CFA pilling Works of High Slumps

June 2015 To Oct 2015

Jazan Refinery and Terminal Project PKG-09, Stone Column Works (J70W, N-S, SRU Pipe Rack Area & J77 Flare Area)

Employer: Ground Engineering Contractor (GEC)

Client: Saudi ARAMCO / SK E&C

Designation: QC Manager – Civil

Responsibilities:

- Ensure full implementation of project specifications during stone columns constructions.
- Monitoring Project Quality Control.
- Implement the Project Quality Plan under civil work phase.
- Developed Quality Control Work Progress Reports.
- Control all the Documents related to the Inspections.
- Maintaining Quality Management System.
- Conduct and attend Management Review Meetings with Saudi Aramco and SKE&C.
- Review of Drawings and Specifications.
- Ensure the full implementation of SATIP, SAICS and Project ITP.
- Control of NCR and Improvement Reports.
- Preparation of daily, weekly and Monthly Progress Report.

Jan 2015 To June 2015

Interchange Bridge, 2nd Ring Road Near Um-UI-Qurraa University Makkah

Employer: Ground Engineering Contractor (GEC)

Client: Ministry of Transport / AL Harbi T&C, Riyadh

Designation: QC Engineer - Civil

Responsibilities:

- Ensure full implementation of project specifications during Bored Pilling works
- Monitoring Project Quality Control.
- Implement the Project Quality Plan under civil work phase.
- Developed Quality Control Work Progress Reports
- Carrying out of Compression Load Test on specified Piles of 150% Design Strength.
- Control all the Documents related to the Inspections.
- Maintaining Quality Management System.
- Conduct and attend Management Review Meetings.
- Review of Drawings and Specifications.
- Inspection and testing of Concrete at site.

Jul 2014 To Dec 2014

Jazan Refinery and Terminal Project PKG 4&5, South Tank Farm (STF) AREA. Stone Columns, Dynamic Compaction & Dynamic Replacement (DC/DR) Works

Employer: Ground Engineering Contractor (GEC)
Client: Saudi ARAMCO/ PETROFAC Saudi.
Designation: QC Engineer - Civil
Responsibilities:

- Monitoring Project Quality
- Ensure full implementation of project specifications during stone columns constructions.
- Monitoring Project Quality Control and Implement the Project Quality Plan
- Developed Quality Control Work Progress Reports.
- Sub Surface Analysis during SPT, Soil Investigation (Bore Hole Logs).
- Carried out Pre & post CPTS of total 70 No's.
- Carried out full scale load test 20 No's
- Control all the Documents related to the Inspections.
- Maintaining Quality Management System.
- Conduct and attend Management Review Meetings.
- Review of Drawings and Project Specifications.
- Ensure the full implementation of SATIP, SAICS and Project ITP.
- Inspection and testing of aggregate specimens.
- Control of NCR and Improvement Reports.
- Preparation of daily, weekly and Monthly progress Reports.

Mar 2014 - Jun 2014

LOADING RACK Facilities @ RT Distribution Sewerage Treatment plant (STP) AREA- Stone Column Works

Employer: Ground Engineering Contractor (GEC)
Client: Saudi ARAMCO / Dragados Gulf Construction Co. Ltd
Designation: Civil QC Supervisor
Responsibilities:

- Monitoring Project Quality Control and Implement the Project Quality Plan.
- Developed Quality Control Work Progress Reports.
- Carried out four full scale load test of 150Kpa
- Carried out Pre & post CPTS of total 21 NO.
- Control of NCR and Improvement Reports
- Control all the Documents related to the Inspections

Nov 2013 - Mar 2014

Seawater Intake Structure, Marafiq SWRO Desalination Plant, Phase II Jubail. Tension Bored piles Contiguous & Secant pile wall & Anchors.

Employer: Ground Engineering Contractor (GEC)
Client: MARAFIQ/ Al Fatah Water & Power, Jeddah
Designation: Civil QC Engineer
Responsibilities:

- Control and Raise of RFI and Maintaining Quality Management System.
- Carried out tests related to Bentonite. (PH, Viscosity, Density and Sand Content Test)
- Critical reviews of Civil field Construction.
- Review of Drawings and Specifications.
- Control of NCR and Improvement Reports.
- Prepare weekly and Monthly Reports.

May 2013 - Oct 2013

WASIT GAS Program Inlet and GAS Processing Facilities Project (WGC) (Package 1, 3 & 4), MEG Area & FGRU (KOD) Area – Stone Column Works

Employer: Ground Engineering Contractor (GEC)
Client: Saudi Aramco / SK E&C
Designation: Civil QC Supervisor

Responsibilities:

Sep 2012 - Apr 2013

Outotec

- Implement the Project Quality Plan under civil work phase
- Developed Quality Control Work Progress Reports
- Conduct and attend Management Review Meetings
- Ensure the full implement of SATIP, SAICS and Project ITP
- Carrying out of 8 No's of full-scale load test
- Inspection and testing of aggregate specimens.
- Control of NCR and Improvement Reports

Crystal Ilmenite Smelting Plant, Jazan Economic City Bored & Fundex Piles (Driven Piles).

Employer: Ground Engineering Contractor (GEC)
Client: OUTOTEC (FINLAND)
Designation: Civil QC Supervisor
Responsibilities:

- Critical reviews of Civil field Construction.
- Review of Drawings and Specifications.
- Carried out Full Scale Load Test (21 no's) on working and test piles of diameter 710mm for Fundex piling, 900 & 1000 mm for bored piles.
- Control of NCR and Improvement Reports.
- Prepare weekly and Monthly Reports.
- Control of records for all the activities related to the Quality Control Department.
- Attended department and project related meetings with client and senior management.

Apr 2012 – Aug 2012

أرامكو السعودية
saudi aramco

WASIT GAS Program Inlet and GAS Processing Facilities Project (WGC) (Package 1, 3 & 4) – Stone Column Works

Employer: Ground Engineering Contractor (GEC)
Client: Saudi Aramco / SK E&C
Designation: Civil QC Inspector
Responsibilities:

- Implement the Project Quality Plan under civil work phase
- Developed Quality Control Work Progress Reports
- Conduct and attend Management Review Meetings
- Ensure the full implement of SATIP, SAICS and Project ITP
- Carrying out of 8 No's of full-scale load test
- Inspection and testing of aggregate specimens.
- Control of NCR and Improvement Reports

Oct 2011 - Apr 2012

الهيئة العامة للمياه
Saline Water Conversion Corporation

Stone Column Works, 3 No.s of Water tanks (Dia – 106 M) Desalination Plant Rasl al Khair KSA.

Employer: Ground Engineering Contractor (GEC)
Client: SWCC/RTCC
Designation: Civil QC Engineer
Responsibilities:

- Monitor all construction activities related to ground improvement
- Ensure full implementation of PQP.
- Perform CPTs & Plate load test after Stone columns installations.

Apr 2010 - Mar 2011

Geological Survey of Pakistan

ONE Year National Internship Program with Geological Survey of Pakistan

Designation: Trainee Geologist
Responsibilities:

- Logging along Nelam Jhelum Hydro Power Project.
- Slope Failure study along the Bank of Karli Dam along the alignment of Gari Road Azad Kashmir.
- 30 Days field trip to Atta bad lake site to study slope failure
- Preparation and evaluate of laboratory test results and reports, calculations.
- Preparation of geological mapping and contour maps.

Aug 2009 - Mar 2010

Detailed Design & Construction Supervision of Provincial Highway Hangu – Thal Road

Employer: REC Consulting Engineers
Client: NHA
Designation: Material Inspector
Responsibilities:

- Assists Senior Engineers and Project Managers with preparation of weekly and monthly program updates and reporting.
- Construction inspection and preparation of reports.
- Estimation of excavation quantity and Field density testing.
- Aggregate testing and Asphalt coring.

Feb 2009 - Jul 2009

FIVE Month Internship with Oil and Gas Development Company (OGDCL-OGTI) ISLAMABD PAKISTAN

Responsibilities:

- Structure/stratigraphic correlation.
- Preparation and Interpretation of faults, Folds, unconformities and joints on the basis of seismic Data.
- Master Log Interpretation (Mud Log). Porosity Calculation of Reservoir's.
- Significance of Gamma Ray Interpretation on the basis of Neutron & Density Log.
- Depth Burial Graph Preparation and Marking of Faults.
- Knowledge of Prospect Generation and Reserve Estimation.

Conclusion & Declaration

- I hereby certify that the above-mentioned statement is correct & true to the best of my knowledge and belief.
- If selected I assure that I would perform to the best of my ability with exemplary professional approach to reach up to the organizations expectation eagerly awaiting a positive response and I hope you will find me a supporter of positive change.
