

OTHMAN AHMED

SENIOR PROJECT MANAGER – CIVIL ENGINEERING | CONSTRUCTION

📍 Al-Riyadh, Kingdom of Saudi Arabia

☎️ +966 55 114 4824 | +966 56 096 5036

✉️ oziahmed1@gmail.com, [LinkedIn](#)

📄 SCE Registration: 425505

Senior Project Manager / Civil Engineer with 10+ years' experience delivering large-scale construction, renovation, maintenance, industrial, infrastructure, and commercial projects in Saudi Arabia and Sudan.

Experienced in civil works, MEP, low-current systems, testing & commissioning, infrastructure, security, and building projects. Skilled in project planning, scheduling, budgeting, resource & manpower management, QA/QC, HSE/OSHA compliance, risk management, procurement, contract administration, stakeholder coordination, team leadership, progress monitoring, and technical design review.

Proven track record of delivering projects on time, within scope, and to the highest quality standards, while optimizing workflows, implementing solutions, and driving operational excellence.

Achievements

- Successfully managed and delivered 15+ large-scale construction and infrastructure projects across Saudi Arabia and Sudan, consistently meeting deadlines and budgets.
- Led the civil works and MEP installation for ARAMCO plants and SABIC facilities with zero safety incidents.
- Implemented innovative workflow optimization modules at Nokia Al-Saudia, reducing project delays by 20%.
- Received multiple commendations from clients and senior management for excellence in project coordination and quality assurance.
- Mentored and developed over 30 project team members, improving overall team performance and efficiency.
- Completed 2 mega projects with Saudi Arabia Railways (SAR)

Interests

- Sustainable construction, green building, infrastructure innovation 🌱
- management methodologies, leadership development, digital transformation 📄
- Technology, tools, and industrial automation / smart city concepts 🖥️
- fitness, outdoor activities, architecture reading, and community volunteering 🏃

Technical Skills

- Budgeting, Cost Control & Financial Forecasting
- Resource & Manpower Management
- Risk Management & Mitigation
- Contract Administration & Procurement
- Stakeholder, Client & Subcontractor Coordination
- Civil Works, Infrastructure & Building Construction
- MEP Coordination & Low-Current Systems
- Testing, Commissioning & Project Handover
- QA/QC Management & HSE / OSHA Compliance
- BOQ Preparation, Quantity Take-Off & Cost Estimation
- Project Planning & Scheduling (Primavera P6, MS Project)
- Progress Monitoring, Reporting & KPIs
- Technical Submittals, SAR, MAR, MIR, RFIs, WIRs & As-Built
- AutoCAD | ETABS | STAAD Pro | Plan Swift
- Microsoft Office (Advanced – Excel, Word, PowerPoint)

Education

- AlMughtarbeen University Bachelor of Civil Engineering
- 2012-2017 Sudan- Khartoum
- Specialization's: Construction, Structural, Géotechnique, Transportation, Infrastructure, Environmental Engineering

Certifications & Approvals Achievements

- PMP/PgMP Project Management– PMI
- Fundamentals of Agile Project Management
- Project Management Procore
- Risk Management
- OSHA – Occupational Safety & Health Administration
- Saudi Council of Engineers (SCE)
- SABIC Civil Engineer / Work Permit Receiver
- Fundamentals of Predictive Project Management
- Generative AI Overview for Project Managers
- Facilities Management course
- ICDL – International Computer Driving License

Professional work experience

Civil Engineer / Project Manager

Nokia Al-Saudia – Saudi Railways (SAR) | Riyadh & Al-Qassim | Nov 2024 – Present

- Managed civil, MEP, electrical, low-current, testing & commissioning, infrastructure, security, and construction activities.
- Implemented innovative modules and solutions to strengthen project frameworks and optimize workflows.
- Directed project planning, scheduling, budgeting, QA/QC inspections, HSE compliance, and risk mitigation.
- Coordinated with clients, consultants, vendors, and subcontractors, ensuring on-time, on-budget delivery.
- Reviewed designs, drawings, BOQs, and technical submittals, ensuring full compliance with QA/QC standards.

Civil Engineer / Project Manager

Al Ghurairi Trading & Contracting Co. (GBCO) | Eastern Province | Mar 2022 – Nov 2024

- Led construction, renovation, and maintenance of ARAMCO 1–6 plants and multiple SABIC facilities.
- Oversaw resource allocation, schedules, progress tracking, and corrective actions.
- Coordinated with clients, contractors, and multidisciplinary teams, ensuring safety, quality, and regulatory compliance.
- Prepared BOQs, cost estimates, resource plans, tender documentation, and managed vendor selection.
- Mentored project teams and delegated responsibilities to drive efficient execution.

Civil Engineer / Project Manager

East Building Contracting Company (EBCON.CO) | Eastern Province | Jan 2019 – Mar 2022

- Managed civil, renovation, and MEP works for industrial and commercial projects from planning through handover.
- Controlled project schedules, monitored progress, and implemented corrective actions to ensure on-time delivery.
- Reviewed and approved designs, drawings, BOQs, and technical specifications in compliance with QA/QC standards.
- Coordinated multidisciplinary teams, subcontractors, and suppliers to ensure effective project execution.
- Supervised daily site activities and ensured compliance with approved plans, specifications, and schedules.
- Prepared work schedules, manpower allocation, material planning, and progress reports.
- Managed RFIs, WIRs, MAAs, punch lists, as-built drawings, and project documentation.
- Ensured adherence to HSE regulations, safety standards, and environmental requirements.
- Identified project risks and implemented mitigation strategies to minimize delays and rework.

Civil Engineer / Project Engineer

Soqur Al-Bawadi Est. | Riyadh | Mar 2018 – Jul 2018

- Supported planning and execution of steel structure and reinforced concrete building projects, including industrial, commercial, and residential works.
- Supervised site activities for foundations, concrete works, formwork, rebar installation, and steel erection.
- Coordinated subcontractors, site engineers, and labor teams to ensure work progressed according to approved drawings and schedules.
- Monitored daily progress, manpower, and materials, and reported project status to management.
- Assisted in quantity take-offs, cost estimation, and material planning.
- Ensured compliance with structural specifications, QA/QC procedures, and HSE safety regulations.

Site Engineer (Civil)

TRAMCO Construction & Industrial Co. | Khartoum, Sudan | Feb 2015 – Jan 2017

- Supervised day-to-day site activities for civil and structural works on industrial and building projects.
- Reviewed construction drawings and coordinated execution in accordance with approved designs and specifications.
- Prepared quantity take-offs, assisted in BOQ preparation, and supported cost estimation and work scheduling.
- Monitored site progress, materials, and subcontractor activities to ensure timely execution.
- Ensured compliance with QA/QC procedures, engineering standards, and HSE regulations.
- Supported inspections, site reporting, and handover documentation.

Additional Information

- Nationality: Sudanese
- Date of Birth: 1989
- Experienced in leading multicultural teams
- Flexible to relocate within Saudi Arabia
- Strong leadership, analytical, and communication skills

Languages

- Arabic – Native
- English – Fluent
