OBJECTIVE

Goal-oriented and knowledgeable Industrial Engineer skilled in process improvement and waste reduction using lean manufacturing techniques. Equipped with total quality management, risk management, safety consideration, and strategic planning. Excited to streamline the processes using solid knowledge of the practical application of engineering science and technology. seeking a challenging position that will permit the use of my skills and knowledge to maximize the company's potential while developing additional knowledge and abilities.

EDUCATION

University of Hail, Saudi Arabia

Bachelor's degree in Industrial Engineering.

Graduation Date: January 2024.

Graduation Project: Design and Development of a Smart Tool Bag.

The project aimed to enhance efficiency and safety on worksites by developing a smart tool bag that charges equipment using solar energy and includes safety sensors. The 5S system was applied to organize tools and streamline operations.

Result: Reduced time and cost by improved work quality and safety.
