PROFESSIONAL SUMMARY

Civil Engineer with 5 years of experience in planning, scheduling, and QA/QC inspections and submittals across infrastructure, heritage restoration, fit-out, and building projects in Saudi Arabia. Strong experience in Primavera P6 scheduling, baseline preparation, progress tracking, reporting, and consultant coordination. Proven ability to manage project schedules, monitor progress, and ensure compliance with project specifications and deadlines.

PROFESSIONAL EXPERIENCE

Planning Engineer – Mabani Al-Watan Al-Turathia Contracting Co.

Jun 2025 – Present | Client: Ministry of Culture

- Developed and updated Primavera P6 baseline and progress schedules for heritage palace restoration projects.
- Prepared weekly schedule updates, including progress measurement and activity status reviews.
- Coordinated progress data with management, site teams, and consultants to ensure accurate schedule reporting.
- Monitored schedule performance and supported corrective actions to maintain project timelines.

Planning Engineer – Red Sea Global

Jan 2025 – Apr 2025

- Developed and managed Primavera P6 schedules for fast-track fit-out projects.
- Prepared baseline schedules, progress updates, and planning reports for internal and client review.
- Coordinated with site engineers to collect progress data and validate actual completion percentages.

Planning Engineer & QA/QC Engineer – Ali Saad Alshehri Contractor

Apr 2023 – May 2025

- Managed project schedules in Primavera P6, including baseline preparation, updates, and progress tracking.
- Conducted QA/QC site inspections to ensure compliance with project specifications, drawings, and consultant requirements.
- Prepared progress reports and coordinated schedule information with project stakeholders and site teams.

QA/QC & Planning Engineer – Al-Mahdod Quick Architectural Solutions

May 2021 – May 2022 | Client: Thaker Real Estate Development

- Performed QA/QC inspections and ensured compliance with approved drawings and specifications.
- Prepared execution and planning schedules using Primavera P6 for projects with multiple work zones and scopes.
- Prepared weekly and monthly progress reports and coordinated progress updates with site teams.

Planning Engineer – Al-Yamama Group

Sep 2019 – Sep 2020 | Client: National Water Company

- Prepared, developed, and maintained Primavera P6 schedules for infrastructure projects.
- Assisted in baseline preparation, schedule updates, and progress reporting.
- Coordinated with project teams to collect progress data and support planning activities.
