Saudi Arabia

Introduction

Accomplished Project Manager with over 20 years of diversified experience in managing large-scale infrastructure, utilities, and transportation projects across Saudi Arabia, Egypt, and Libya. Proven success in delivering major developments for NEOM, Qiddiya, and the National Water Company (NWC)—completing projects ahead of schedule, within budget, and to the highest quality standards.

Expert in project planning, execution, cost control, risk management, stakeholder coordination, and FIDIC-based contract administration. Strong leadership in managing multidisciplinary teams, optimizing resources, and applying value engineering to achieve cost savings.

Certified PMP professional with solid experience in quality assurance, safety compliance, and digital project management tools (MS Project, AutoCAD, Primavera). Dedicated to driving operational excellence aligned with Saudi Vision 2030.
