Objective

A results-driven Civil Engineer with practical experience in construction supervision, site management, and project coordination. Dedicated to delivering high-quality and sustainable engineering solutions with strong analytical, leadership, and problem-solving abilities. Seeking to contribute to an organization that values innovation, safety, and excellence. Experienced in finishing and interior fit-out works including supervision of architectural and interior trades, coordination with subcontractors, and ensuring high-quality execution in compliance with project specifications and HSE standards.

Technical Skills

- AutoCAD | Civil 3D | Revit | Primavera P6 | MS Office Suite
- Project Planning & Scheduling | Quantity Surveying | Cost Estimation
- Structural Design | Construction Supervision | QA/QC Implementation
- HSE Compliance | Site Management | Report Preparation

Professional Experience

❖ Site Engineer | ELZURA CONTRACTING COMPANY/ Nov 2025 – Present | Al Khobar, Saudi Arabia

- Review technical drawings, specifications and shop drawings for finishing and fit-out works; ensure full understanding of scope & requirements.
- Prepare and supervise execution method statements, work sequences, and finishing schedules for trades.
- Manage site supervision of finishing works: block & plaster, Wall Cladding / Wall Finishes, flooring, gypsum board walls & ceilings, joinery, painting and wall-cladding.
- Coordinate with interior designers, architects, MEP engineers, structural engineers, subcontractors and suppliers to resolve design and execution conflicts.

🏗️ Project Construction – The Avenues Al-Khobar Mall.
🏗️ The project Value: 3,660,000,000.

❖ Site Engineer & Supervision | Almagareeb Group Construction & Housing Co. 2024 – 2025 | Amman, Jordan

- Reviewed and verified design drawings, shop drawings, and BOQs for compliance with standards.

- Prepared site progress reports, monitored schedules, and addressed project delays proactively.
- Maintained close coordination with consultants, subcontractors, and clients to optimize workflow.
- Review technical drawings, specifications and shop drawings for finishing and fit-out works; ensure full understanding of scope & requirements.

🏗️ **Project Value: 1,500,000 JD.**

❖ **Site Engineer & Supervision | Al Bader Engineering Consultants**

2023 – 2024 | Amman, Jordan

- Managed daily site operations, including manpower allocation and task scheduling.
- Conducted inspections and material testing to ensure design and quality standards compliance.
- Supported documentation, reports, and technical communication with clients and contractors.
- Manage site supervision of finishing works: block & plaster, tiling, marble, flooring, gypsum board walls & ceilings, joinery, painting and wall-cladding.

🏗️ **Project Value: 750,000 JD.**

❖ **Site Engineer | Al Fayyadeya Group Construction & Housing Co. 2022 – 2023 | Amman, Jordan**

- Supervised on-site construction works ensuring adherence to design and safety requirements.
- Assisted in estimation, cost tracking, and procurement coordination.
- Collaborated with project managers to maintain progress and meet quality benchmarks.

🏗️ **Project Value: 2,000,000 JD.**

Education

Bachelor of Civil Engineering – Al-Ahliyya Amman University, Jordan (2017–2022)

GPA: 2.58 / 4.00

High School – Scientific Stream (Equivalent to 81.6 / 100)

Personal Skills

- Strong communication and teamwork abilities
- Analytical thinking and problem-solving under pressure
- Attention to detail and organizational discipline
- Adaptability, professionalism, and commitment to continuous learning
