Professional Summary

Welding Technician with more than 5 years of practical experience in drilling and petroleum operations. Skilled in preparing, operating, and maintaining drilling equipment with proven expertise in MWD (Measurement While Drilling) and multiple welding processes. Certified through internationally recognized qualifications in welding and engineering construction. Strong background in safety compliance, technical inspections, and equipment monitoring in high-demand industrial settings.

Objective

Seeking a challenging role as a Welding and Drilling Technician within a reputable industrial or petroleum company, applying strong technical expertise in welding processes, drilling operations, equipment preparation, and safety compliance while supporting efficient operations and continuous improvement of engineering projects.

Professional Experience

Drilling Technician | Schlumberger | January 2023 – Present

- Prepared and operated drilling equipment with focus on safety and reliability.
- Performed MWD operations and real-time drilling measurements.
- Monitored equipment performance and conducted preventive maintenance.
- Assisted in optimizing drilling processes and reducing downtime.

Education

Diploma in Welding Technology | Saudi Petroleum Services Polytechnic (SPSP), Dammam | 2022

Certifications & Training

- Level 3 Diploma in Engineering Construction – Welding | City & Guilds – SPSP | 2023
- Certificate of Unit Credit (Level 3 – Welding) | City & Guilds – SPSP | 2022
- Level 2 NVQ Diploma in Performing Engineering Operations | GQA Qualifications Ltd – SPSP | 2022

Licenses

Level 3 Diploma in Engineering Construction – Welding | Saudi Petroleum Services Polytechnic | 2023

Skills

Personal Skills

Teamwork | Communication | Adaptability | Problem Solving | Time Management | Social Media Awareness | Presentations | Reliability

Professional Skills

Equipment Preparation | Drilling Operations | Safety Compliance | Welding Inspection | Quality Control | Technical Measurements | Maintenance Planning | Risk Assessment

Technical Skills

SMAW, MIG, TIG, FCAW Welding | Equipment Monitoring | Blueprint Interpretation | Component Fabrication | MS Office Suite (Word, Excel, PowerPoint, Outlook) | Basic AutoCAD | Engineering Drawings | Data Reporting
