

AMJAD ABIDI

CONSTRUCTION PROJECT MANAGER | SENIOR ELECTRICAL ENGINEER (UAE EXPERIENCE)

Email: amjad.abidi@gmail.com

Phone: +92 331 2819491

Open to relocation to Saudi Arabia | Immediate availability

Professional Summary

Construction Project Manager with 24+ years of GCC experience delivering large scale building, healthcare, commercial, high rise residential, hospitality, and mixed use projects. Proven leadership in managing contractors, consultants, authority approvals, testing & commissioning, and full project lifecycle delivery from mobilisation to final handover. Strong background in MEP coordination, site execution, quality control, and schedule driven project completion.

CORE COMPETENCES

- Electrical Project Management
- Project Execution & Delivery
- Authority Approvals & Compliance (UAE)
- Testing & Commissioning
- Contractor & Consultant Coordination
- Project Planning, Monitoring & Control
- Quality Assurance & HSE Compliance
- Client & Stakeholder Management

CAREER ACCOMPLISHMENTS

- Managed building and MEP project packages across healthcare, commercial, and residential developments with values up to AED 200M.
- Led testing & commissioning and authority approvals for LV systems, generators, UPS, and ELV systems
- Coordinated with DEWA, Civil Defence, and local authorities to achieve compliance and timely handover
- Managed multidisciplinary site teams of 40+ engineers, supervisors, and technicians
- Reduced project risk and rework through proactive coordination, QA/QC enforcement, and schedule control
- Achieved project handover on schedule despite fast-track timelines
- Recovered delayed projects and met revised completion targets
