## PROFILE SUMMARY

Driven by a passion for excellence, I've leveraged my **5+** years of experience as a Civil QC Inspector and Site Engineer, to ensure top-notch quality across diverse construction projects. My proven track record includes successful roles with prestigious companies. My strong foundation in civil engineering, coupled with my ISO 9001:2015 QMS, Level 3 Diploma in QA/QC Civil and Occupational Health & Safety Certifications, empowers me to meticulously inspect construction methods and ensure adherence to all quality standards and procedures. I'm a highly motivated and detail-oriented professional. I'm confident my skills and experience would make me an invaluable asset to your team.

## EDUCATION & CERTIFICATIONS

- BSc In Civil Engineering (4 Years Degree Program)
- ISO 9001:2015 QMS (Lead Auditor Course)
- Level 3 Diploma In QA/QC Civil
- Nebosh (International General Certificate)
- Level 2 Award In First Aid and Fire Safety
- AutoCAD 2D

## PROFESSIONAL EXPERIENCE

### **Project: Taif Entertainment Complex**

Sep 2024- Till now

**Position:** Civil QC Inspector

**Organization:** UCC (BUJV)

**Client:** SEVEN

**Consultant:** Dar Al Handasa

### **Project: Red Sea International Airport**

**Position:** Civil QC Inspector

Nov 2022- Mar 2024

**Organization:** REEM Emirates

**Client:** Red Sea Global (RSG)

**Consultant:** AECOM

### **Project: AMAALA Utilities PPP**

**Position:** QC Inspector

Jan 2020- Sep 2022

**Organization:** Larsen & Toubro (L & T)

**Client:** Red Sea Global (RSG)

**Consultant:** Fitchner

### **Project: New City Development Program**

**Position:** Site Intern Civil Engineer

Dec 2018 - Nov 2019

**Organization:** Shahmir Engineering and Co.

**Client:** NCMA

## RESPONSIBILITIES

### Inspection and Verification:

- Conduct inspections of construction activities to ensure compliance with project specifications, blueprints, and quality standards.
- Verify the quality and quantity of materials delivered to the site, including concrete, steel, wood, and other building components.
- Inspect construction methods and equipment to ensure they meet safety regulations and industry best practices.
- Review and approve contractor submittals related to materials, methods, and testing procedures.
- Witness and document testing procedures performed by independent laboratories or on-site technicians.
- Maintain accurate and detailed inspection reports, including photographs and non-conformance reports.

### Quality Control and Documentation:

- Develop and implement inspection checklists and procedures for different construction phases (e.g., foundations, framing, finishes).
- Analyze inspection data to identify trends and potential quality issues.
- Prepare non-conformance reports (NCRs) for deviations from specifications and recommend corrective actions.
- Track the resolution of NCRs and ensure corrective actions are implemented effectively.
- Maintain a comprehensive quality control documentation system, including inspection reports, test results, and NCRs.

### Material Management:

- Verify material certifications and test reports to ensure they meet project specifications.
- Conduct visual inspections of materials for damage or defects.
- Maintain proper storage and handling procedures for construction materials to prevent deterioration.
- Work with suppliers to resolve material delivery issues or discrepancies.

### Communication and Coordination:

- Communicate inspection findings and recommendations to project engineers, supervisors, and contractors.
- Participate in project meetings to discuss quality control issues and mitigation strategies.
- Collaborate with other QC inspectors, surveyors, and testing personnel.
- Maintain clear and professional communication with all stakeholders on the project.

### Safety and Environmental Awareness:

- Identify and report potential safety hazards on the construction site.
- Ensure compliance with environmental regulations and proper waste disposal procedures.
- Understand and implement relevant safety protocols for specific construction activities (e.g., working at heights, confined spaces).

## **Continuous Improvement:**

- Stay up-to-date on industry standards, codes, and best practices for civil construction.
- Recommend improvements to quality control procedures based on experience and lessons learned.
- Identify opportunities to streamline inspection processes while maintaining quality

## **COMPUTER SKILLS**

- Auto CAD
- MS Word
- ETABS
- Power Point
- Excel
- MS Office

## **PERSONAL ABILITIES**

- Policy & Procedures Development
- HSE Plans
- Communication & Presentation
- Regulatory Compliance
- Continual Improvement
- Audit & Inspection
- Training Need Analysis
- Documentation & MS Office
- Facilitation Management
- Problem Solving
- Hazard Identification
