Summary

Senior Full Stack Developer with 15+ years of hands-on experience designing, developing, and deploying scalable web applications using the Microsoft .NET ecosystem (including .Net Core, ASP.Net WebAPI, and Blazor) and Angular. Proven expertise in building robust, high-performance solutions across the full software development lifecycle, from requirements analysis to deployment and maintenance. Adept at leading development teams, mentoring junior developers, and collaborating with cross-functional stakeholders to deliver business-driven technical solutions. Passionate about adopting modern architectures, cloud technologies, and Agile/Scrum methodologies to drive innovation and efficiency.

TECHNICAL SKILLS

Programming Languages:

C#, VB.NET, Python, Java, C++, JavaScript, TypeScript

Back-end Frameworks:

.NET Core, ASP.NET Core, ASP.Net WebAPI, Blazor (WebAssembly & Server), ASP.NET MVC, Entity Framework Core, ABP Framework

Front-end Technologies:

Angular, React, Node.js, jQuery, Stencil.js, HTML5, CSS3

Database Management:

Microsoft SQL Server, MySQL, Database Design, Data Modeling, Query Optimization

PROFESSIONAL EXPERIENCE

Senior Software Developer (Full Stack) | WSM | Riyadh, Saudi Arabia

October 2022 – January 2026

- Led the development of an Internal Portal web application using Angular and .NET Core, enhancing user experience.
- Built a training web application for government agency serving 5,000+ users.

- Created a reusable Angular component library adopted across multiple government projects, promoting consistency.
- Established and managed a high-performance project team responsible for delivering key initiatives. Directed all phases of project life-cycle fostering a collaborative that consistently met project milestones.
- Design and implement RESTful APIs and integrations with third-party systems.

Technologies: Stencil, ASP.NET Core, ASP.NET WebAPI, Blazor, MVC, Microsoft SQL Server, Storybook, Angular, CSS, React.js, Software Development, C#, ASP.NET MVC, HTML5, Tailwind, Team Leadership.

Senior Software Developer | 2P Perfect Presentation | Riyadh, Saudi Arabia

June 2020 – September 2022

- Developed and delivered 4+ government systems using ASP.NET MVC and .NET Core, improving operational efficiency and user satisfaction
- Design and implemented SQL Server database solutions handling over 1M+ records, ensuring data integrity and high performance querying.

Technologies: ASP.NET, MVC, .NET Core, SQL Server, Entity Framework

Security:

IdentityServer4, OAuth2 / OpenID Connect

Architecture & Design:

Microservices, Clean/Layered Architecture, REST APIs, Domain-Driven Design

Development Tools:

Visual Studio, VS Code

Methodologies:

Agile (Scrum), DevOps, Object-Oriented Programming (OOP), Test-Driven Development (TDD)

Related System:

ERP Systems

EDUCATION

- **B.Sc. in Information Technology**, Damascus University, Syria (2000 – 2005)

ADDITIONAL INFORMATION

- Languages: Arabic (Native), English (Professional)
- Work Authorization: Transferable Iqama (Saudi Arabia)
- Nationality: Syrian
- Status: Transferable Iqama

Senior Software Developer | Dynamic Systems |

Riyadh, Saudi Arabia

May 2018 – May 2020

- Developed and maintained +5 enterprise web applications for government sector clarinets, enhancing system reliability and use engagement.
- Contributed to architecture planning and performance tuning.
Technologies: ASP.net Core, SQL Server, Microservices, RESTful APIs

Senior Software Developer | Advance International

Company ZKTeco SA | Riyadh, Saudi Arabia

June 2013 – April 2018

- Built and supported enterprise solutions, including 8 modules (Accounting, Warehousing, HR...).
- Led database design and data modeling for 10+ enterprise applications
- Partnered with teams to improve stability and reduce production incidents.
Technologies: .NET Framework/Core, SQL Server, ERP System (Torando)

Developer | Agility | Al Khobar, Saudi Arabia

April 2013 – May 2013

- Developed a customs clearance system to streamline import/export documentation.

Technical Support | System Technology

Communication Est. | Dammam, Saudi Arabia

July 2012 – April 2013

- Supported the "Almotakamel" ERP system and resolved network and Windows OS issues.

Manager IT Dept | SIAMCO | Damascus, Syria

January 2009 – June 2012

- Managed full IT department, including internal applications, network and database infrastructure, and end-user support.
- Led database design and data modeling for 10+ enterprise applications.\
- Reduced system errors by ~60% through structured testing and quality processes.

IT Trainer | Asia Center For Computer & Languages |

Damascus, Syria

June 2008 – December 2008

- Delivered ICDL and C++ fundamentals training courses.
