

KASHIF JAMSHED

QA/QC CIVIL SUPERVISOR

Saudi Council of Engineering Reg Number: **1119076**

engineerkashifjamshed@gmail.com / +966-506013560

(Iqama valid and Transferrable)

CAREER OBJECTIVE

- Highly skilled Professional Senior Civil Engineer (PE) having over 16 years of experience in the field of construction, capable of handling the entire round of civil engineering cycles including planning, designing, evaluating, and overseeing construction of building structures and facilities.
- Expertise in Project conception, Design, Procurement, QA/QC management & supervision, Human & Physical Resource management, and more with excellent interpersonal communication, Managerial, Technical & Leadership skills.

EDUCATION AND RECOGNITION

- **CECOS University Peshawar, Pakistan**
- Master (Structural Engineering) – Registration # 2010/CUP/MS-Civ-0028
- **University of Engineering and Technology (UET), Peshawar, Pakistan**
- Bachelor (Civil Engineering) – Graduated in 2008
- **Registered Professional Engineer (P.E)**
- Pakistan Engineering Council (Civil/28047) – Registered in 2024

PROFESSIONAL EXPERIENCE

Fortune Engineering and Energy Company, Abqaiq Plant ARAMCO, Kingdom of Saudi Arabia

QC Civil in ARAMCO, Kingdom of Saudi Arabia having ARAMCO badge number 7297892 from August 2, 2025 to till date.

- Monitoring ongoing construction activities (earthwork, compaction, pouring of concrete, steel fixing, welding, piping, asphalt laying) to ensure procedures are followed correctly.
- Maintaining detailed inspection reports (IRs) and checklists.
- Logging non-conformance reports (NCRs) when defects are found and tracking their correction.

Zhongji, Sub-Contractor of Shandong Tiejun Electric Power Engineering Co. Ltd
Hanak , Kingdom of Saudi Arabia

QC Engineer (Steel & Infrastructure)– *Construction of Shura & Laheq islands of Tabouk region, Saudi Arabia under the client Red Sea Global (RSG) from Jan-2024 to June-2025.*

- Planning, designing and supervising construction projects.
- Conducting site inspections and ensuring quality control.
- Review shop drawings and submission of RFIs.
- Preparing reports and cost estimation of Shura island Hotel East- 04 which include key plan, As built drawings, inspection & Tests Plan, Method Statement, Material Inspection Request, Material Approval report and Submitting of final Report of luxury hotels and utilities.
- Coordination with Red Sea Global Client and other Stake holders regarding issues and progress.

Paradigm Construction Company Riyadh, Kingdom of Saudi Arabia

QC Civil– Worked from Jan-2018 – July-2021 on the following packages

- Construction and Renovation Projects of “Aldrees Petrol Stations Riyadh Region”.
- Construction and Renovation Projects of “Hospital at Shuaims (Hail Region Al Haith District)”.
- Scope of work consists of demolition work of existing structures, preparation of proposed new designs as per Aldrees standards, environmental works, road connections, retaining walls and landscape works.
- Determining milestones of projects between client and contractor; reporting any anomalies or potential schedule delays, preparation of Bar Chart showing planned and actual progress based upon physical achievement for the project to highlight project finish date and overall situation; preparation of manpower reports.
- Similarly, the scope of later work consists of Construction of New Extended block of 25 beds, Demolition of old boundary Wall and Construction of new boundary wall with advance Security Systems.
- Construction of new Residential Building for nurses, Construction and Renovation of old Landscape works, Complete Renovation Work of old hospital building, Construction of Medical Wastage Rooms for expired medicines.
- Redesigning of new Fire Fighting and Storm Water Sewage Systems as per MOH Standards. Also includes advance Systems for CCTV and a DATA System for indoor outdoor Patients.

Darwish Construction Company (Building Division) , Abu Dhabi, United Arab Emirates

Structure Engineer –From 24-Jan-2017 to 13-Jan-2018 on the following projects

- Construction of Sadiyat Island Resort Development Abu Dhabi. Project Cost = AED 860 Million.
- Construction of Reem Mall Abu Dhabi. Project Cost = AED 2.273 Billion.
- Construction of 5 Residential Buildings in Al Raha Beach Abu Dhabi. Project Cost = AED 350 Million.
Supervised construction activities, reviewed technical submittal, and ensured compliance with quality control standards.
- Conducted site related inspections to ensure compliance with design.
- Managed subcontractors' performance, expedited tasks, and processed payments.
- Collecting the required documents and data for developing the fully costs and resources for execution of work.
- Mitigate risks through rigorous quality checks.
- Revising the schedule when required and acquisition of time extension as per requirement of the remaining part of project from the client/consultants.
- Prepared reports, feasibility studies and construction related documentations.
- Problem solving for complex structural challenges related to design, architectural and QS staff.
- Documents design changes and approvals.

Al Amar Engineering and Contracting Company, Dubai, United Arab Emirates

Structure Engineer –From 04-Feb-2015 to 02-Jan-2017 on the following projects

- Construction of Marina Residence Tower 4B+G+39 Floors in JBR Dubai. Project Cost = AED 144 Million.
- Construction of NBAD BANK Building 4B+G+14 Floors in Jadaf Dubai. Project Cost = AED 110 Million.
- Oversaw funded construction projects, reviewed technical submissions, and coordinated activities with stake holders.
- Ensured project compliance and facilitated meetings to plan and review progress.
- Preparing claims for extension of time (EOT) and saving contractor's rights as per the FIDIC and general conditions of the contract.
- Review the subcontractors' programs in accordance with the baseline program and its approvals. Monitoring the subcontractors program.
- Review and support project team for weekly updates and assist teams with 'What If' scenarios to review alternate methods.

JV. CIV Tech Associates & EPAC Consultants, Peshawar (Project Management Consultancy)

Structure Engineer – *Mini Police Line, District Torghar* Pakistan from July 2013 – December 2014.

- Provided technical assistance in construction activities and supervised structural work.
- Optimization of designs for cost, durability and environmental impacts.
- Research materials and sustainable design practices
- Conducted various quality control tests and ensured compliance with design specifications.

Sustainable Peace & Development Organization, Pakistan

Senior Engineer–*Pakistan Poverty Alleviation Fund (PPAF)* German Funded kfw from Mar 2013 – June 2013

- Developed work plans, progress reports, and supervised the Poverty Scorecard Survey.
Prepared and supervised infrastructure proposals for protection walls, link roads, and water supply schemes.
- Designed and estimated costs for need-based infrastructure.
- Prepared proposals, conducted surveys, and designed cost estimations for sanitation, irrigation, and DWSS projects.
- Engaged communities through TOP preparation, record maintenance, and member identification for programs.

Islamic Relief, Pakistan

Senior Engineer (WASH & Shelter) – *Flood Rehabilitation, Charsadda* Pakistan from Oct 2011 – Dec 2011

- Prepared proposals for shelter and sanitation schemes.
- Supervised construction activities and ensured compliance with procurement requests.

Engineering Consultant International Limited (ECIL)

Site Engineer – *Post-Earthquake Rehabilitation, AJK Pakistan (USAID Funded)* from Nov 2008 – Oct 2009

- Supervised structural works and ensured compliance with project specifications.
- Prepared daily progress reports and expedited work progress.

PROFESSIONAL TRAININGS

- Arranged 06 day training course of primavera P6 on special request of Project Director UEAS Swat, held at Project Management unit office.
- Attended One day CPD short course on “Non Destructive Testing Techniques for Bridges” arranged by Pakistan Engineering Counsel on March 24, 2015 in CECOS University Peshawar.
- Attended One day CPD short course on “Earth Quake Resistance Building Design” arranged by Pakistan Engineering Counsel on April 26, 2014 in COMSATS Abbottabad.

- Attended meetings with Participation in “1-day Workshop on Understanding concepts of Development” by senior SRSP Board Member Mr. Col(R) Alamzeb Khan held on 26th April, 2012.
- Participation in “4 days training on Gender Discrimination, Mainstreaming & Social Mobilization” by RPM Mansehra Mr.Zubair held from 18th October to 21st October, 2011 organized by SRSP.
- Participation in “Poverty Score Card” survey as a Supervisor under SRSP held from 30th december,2009 to 20th January, 2010.
- 5 Days Training for Engineers on “Physical Infrastructure proposal design & Record keeping” organized by Program Manager Engineer Mr.Humayun PI & WES SRSP held from 11th January, 2010 to 15th January, 2010.

Technical Skills

- **Microsoft Project Management** and Primavera, P6
- **Microsoft Office** Applications MS Word, MS Excel, MS Power Point, MS Outlook
- **Construction Management:** Overseeing project planning, scheduling, budgeting, and resource allocation.
- **Materials Science:** Knowledge of construction materials like concrete, steel, and wood, including their properties and usage.
- **AutoCAD and Design Software:** Proficiency in computer-aided design tools to create blueprints and plans.
- **Surveying:** Measuring and mapping construction sites, ensuring accurate positioning and elevation.
- **Environmental Engineering:** Minimizing the environmental impact of construction projects and adhering to regulations.
- **Project Planning:** Developing project timelines, work breakdown structures, and resource management plans especially for Saudi Aramco brown and green fields’ engagements.
- **Risk Management:** Identifying and mitigating potential risks during construction.
- **Quality Control and Assurance:** Ensuring construction materials and workmanship meet standards and specifications.
- **Construction Techniques:** Knowledge of various construction methods, like soil improvements by stone columns and soil replacement methods
- **Safety Protocols:** Implementing safety measures to protect workers and the public, especially Saudi Aramco Work Permit System and Safety compliance.
- **Communication:** Effective communication with teams, clients, and stakeholders.
- **Cost Estimation:** Estimating project costs and managing budgets.
- **Regulatory Compliance:** Understanding and adhering to building codes and regulations, having an advance level of Saudi Aramco Engineering standards and field applications experience.
- **Problem Solving:** Addressing unforeseen challenges during construction.
- **Team Leadership:** Managing construction teams and subcontractors.
- **Project Documentation:** Maintaining records and documentation throughout the construction process.
- **Sustainability Practices:** Incorporating eco-friendly and sustainable construction practices.
- **Adaptability:** Keeping up with evolving construction technologies and methodologies.
