## Professional Summary:

- Planning Engineer with over 8 years of experience in EPC Project Management, Planning, and Scheduling for top clients like Aramco, Marafiq, MASA, SABIC, and JIGPC-Jizan, in collaboration with WSP Consultants in Riyadh.
  - Proficient in Primavera P6 and MS Project for project scheduling, progress monitoring, and performance reporting.
  - Skilled in project planning, baseline preparation, resource and cost optimization, and achieving on-time, cost-effective project delivery.
  - Expertise in Claims and EOT (Extension of Time) management, risk and delay analysis, and maintaining full contractual compliance.
  - Strong in EPC project execution, team leadership, and client/consultant coordination, ensuring smooth communication and project alignment.
  - Recognized for excellent analytical thinking, problem-solving, and decision-making skills that enhance overall project performance.
- 

## Software Skills:

- Planning – Primavera P6, SAP PS, Power Bi, Excel, Word etc.
  - Designing – SolidWorks, Adobe Illustrator, AutoCAD etc.
- 

## Experience:

I have more than **8 Years** of experience.

### A. Position: Sr. Project Planning Engineer

**Title & Client:** Aramco – Barri Gas Plant Jubail, Saudi Arabia

**Parental Organization:** AOSCO

**Duration:** Mar 2025 – Ongoing

In this project our scope is to replace the RTR pipeline with HDPE pipeline. Besides this, we must install the new Galvanized Iron pipeline for the fire-fighting system and replace the fire hydrants with complete EPC package.

**B. Position: Sr. Project Planning Engineer**

**Title & Client: Riyadh Airports Company (RAC) Riyadh, Saudi Arabia Parental Organization: AOSCO**

**Consultant: WSP**

**Parental Organization: AOSCO**

**Duration: July 2024 – Feb 2025**

In this project, our scope of work focuses on enhancing the cabin crew facilities to provide a more functional and efficient environment, supporting smooth day-to-day airport operations. The project includes the development of a designated parking area to improve accessibility and operational flow. The complete EPC scope covers civil, road, landscaping, electrical, and mechanical works, ensuring comprehensive infrastructure and system upgrades across the facility.

**C. Position: Project Planning Engineer**

**Title & Client: Residential Apartments near Military Airport Dhahran, Saudi Arabia**

**Parental Organization: AOSCO**

**Duration: June 2023 – July 2024**

In this project, our scope covers the complete construction of residential apartment buildings, including structural, architectural, and MEP works. The package involves civil works, finishing, electrical, and plumbing, HVAC, and fire-fighting systems on a full EPC basis.

**D. Position: Project Planning Engineer**

**Title & Client: Permanent Access Platform for LOX Pumps, Jizan (Client: JIGPC), Saudi Arabia**

**Parental Organization: AOSCO**

**Duration: Feb 2023 – May 2023**

In this project, our scope of work is to install permanent platforms at 16 different locations inside the JIGPC Plant to get access for liquid oxygen cylinders. This is an EPC project in which engineering, procurement, and construction are all our scope.

**E. Position: Project Planning Engineer**

**Title & Client: Installation of New Gas Detection Systems SCADA Oper. Dhahran (Client: Aramco)**

**Parental Organization: AOSCO**

**Duration: Sep 2022 – Jan 2023**

In this project our scope of work is the Installation of a New Gas Leakage Detection System operated by SCADA Software. For this we used Elpro Products from our official partner from **ELPRO Australia**, and the location of this project is in Dharan ARAMCO community.

**F. Position: Project Planning Engineer**

**Title & Client: Replacement of Fire Water Line in Hadeed facilities, Jubail (Client: Hadeed-SABIC)**

**Parental Organization: AOSCO**

**Duration: Mar 2022 – Aug 2022**

In this Project our scope of work is to replace the 12inch fire water CS Pressurized line with the new one. For this we have fabrication works (Welding AW with NDT testing as Hardness test, Penetrant testing, RT Testing) as well as coating (Blasting and painting)

**G. Position: Project Planning Engineer**

**Title & Client: Installation of New MOV at FRP Pipelines in VC-104 SWC, Jubail (Client: Marafiq), Saudi Arabia.**

**Parental Organization: AOSCO**

**Duration: Jan 2020 – Feb 2022**

In this Project our scope of work is installing of an additional New MOV with a 3200 mm Diameter within the Valve Chamber VC-104 on the backside of the ARAMCO-SATORP Plant inside the Marafiq-MASA Premises. To isolate the valve chamber, we install a temporary bypass line (GRP) with a 1400mm Dia-pipeline, which we supposed to tie into the corresponding manholes.

**H. Position: Site Engineer/Planning Engineer**

**Title & Client: Oil and Gas Development Company (OGDCL), Pakistan.**

**Parental Organization: OGDCL**

**Duration: Oct 2017 – Dec 2019.**

Involve in Planning activities for ongoing project and maintenance activities at OGDCL Pakistan. Ensuring effective resource allocation, timeline management, and strategic coordination to optimize project execution. Continuously monitoring progress to align with organizational goals and industry standards
