## SUMMARY

As an experienced HSE Supervisor/Trainer(Neom/Qiddiya Approved ) I specialize in creating and maintaining safe work environments by implementing robust Health, Safety, and Environmental (HSE) policies across various industries. With a proven track record of conducting risk assessments, managing compliance with local and international safety regulations, and leading safety audits, I ensure operational safety at all project phases. My leadership extends to supervising safety teams, collaborating with project managers, and enforcing stringent safety protocols to prevent workplace incidents and improve overall safety culture. I am highly skilled in hazard identification, emergency preparedness, and safety training, ensuring that all employees are equipped with the knowledge and tools necessary to work safely. My proactive approach to safety management has consistently reduced incidents and enhanced operational efficiency.

## EXPERIENCE

### **HSE SUPERVISOR/ SAFETY TRAINER, QIDDIYA PROJECT, NOV2025- TILL-DATE. RIYADH KSA**

- Implement and monitor Health, Safety & Environment (HSE) policies, procedures, and site-specific safety plans.
- Conduct daily site inspections, hazard identification, and risk assessments to ensure compliance with HSE standards.
- Supervise high-risk activities including work at height, excavation, lifting operations, confined space, and hot works.
- Ensure compliance with Saudi NEOM / Qiddiya / Client and local regulatory HSE requirements (where applicable).
- Lead Toolbox Talks (TBT), safety briefings, and daily task risk assessments (TRA/JSA).
- Investigate incidents, near misses, and unsafe conditions; prepare incident reports and implement corrective actions.
- Monitor use of PPE and enforce safe work practices across all site activities.
- Coordinate with construction, engineering, and subcontractor teams to resolve safety issues.
- Maintain HSE records, permits, inspection checklists, and safety documentation.
- Support emergency preparedness, drills, and site emergency response plans.
- Plan and deliver HSE training programs for workers, supervisors, and management.
- Conduct inductions, refresher training, and task-specific safety training.
- Deliver Toolbox Talks (TBT), safety awareness sessions, and behavior-based safety programs
- Prepare training materials, presentations, handouts, and visual safety aids.
- Ensure training compliance with client, company, and legal HSE requirements.
- Assess training effectiveness and maintain training attendance and competency records.
- Support site HSE team in implementing safety campaigns and initiatives.

### **HSE SUPERVISOR/ SAFETY TRAINER, Sindalah Island, January 2023-Aug 2025 Neom, KSA**

- Develop, update, and tailor safety training modules, materials, and presentations (e.g., for new hires, ongoing refreshers, and specific hazards like Personal Protective Equipment (PPE), Work at Height, Confined Space, Excavation, Lifting, Lockout/Tagout, or emergency procedures).

- Lead engaging and informative training sessions, workshops, and seminars using various methods like classroom instruction, hands-on demonstrations
- Maintain accurate and up-to-date records of all safety training activities, attendance, and employee certifications for compliance purposes.
- Assist in the investigation of accidents, near-misses, and incidents to determine root causes, identify training gaps, and recommend corrective actions to prevent recurrence.
- Work closely with management to identify specific safety training needs, develop safety policies and procedures, and integrate safety goals into overall company operations.
- Deliver classroom and practical training in WAH, Confined Space, Fire Safety, PPE, Scaffolding Safety, and other HSE topics.
- Conduct competency assessments, written tests, and hands-on evaluations for new and existing staff.
- Participate in incident investigations and integrate lessons learned into future training.
- Ensure full compliance with health, safety, and environmental regulations, standards, and company policies.
- Conduct regular risk assessments and hazard identification to prevent accidents and minimize risks on site.
- Organize and deliver safety training programs for employees, promoting a culture of safety awareness and compliance.
- Lead investigations into accidents, incidents, and near misses, identifying root causes and implementing corrective actions.
- Develop, implement, and manage emergency response plans, ensuring readiness for potential incidents.
- Prepare and submit detailed reports on safety performance, incidents, and compliance to management and regulatory bodies.
- Oversee environmental protection measures, ensuring minimal environmental impact from operations.
- Implement and enforce company HSE policies, updating them as necessary to align with new regulations and best practices.
- Work closely with management, supervisors, and employees to foster a proactive approach to health and safety.

## **HSE SUPERVISOR**

### **The Line & Spine, March 2020-Dec 2022 Neom, KSA**

- Develop and execute health, safety, and environmental strategies to ensure compliance with regulatory requirements and company standards.
- Develop and implement safety policies, procedures, and strategies to ensure a safe working environment.
- Conduct regular risk assessments and hazard identification to prevent workplace accidents and ensure compliance with safety regulations.
- Develop and implement emergency response plans, conduct drills and ensuring readiness for crisis situations.
- Oversee all subcontractor activities, ensuring they adhere to safety protocols and project safety standards.
- Conduct fire drills, medical drills, and other emergency preparedness exercises to ensure readiness and compliance.
- Conduct comprehensive risk assessments and hazard identification, implementing control measures to minimize risks in the workplace.
- Oversee the investigation of accidents, incidents, and near-misses, ensuring root cause analysis and corrective actions are completed promptly.
- Ensure full compliance with local, national, and international health, safety, and environmental regulations, as well as industry's best practices.

## **SR. SAFETY OFFICER, Riyadh Metro Project, January 2017-Feb 2019 Riyadh, KSA**

- Develop and implement emergency response plans, conduct drills and ensuring readiness for crisis situations.
- Create, review, and update HSE policies and procedures, ensuring they are aligned with organizational goals and regulatory changes.
- Manage and mentor HSE teams, promoting a culture of safety and accountability across all levels of the organization.
- Prepare and present detailed HSE reports to senior management, highlighting key performance indicators, trends, and areas for improvement.
- Collaborate with internal and external stakeholders, including regulatory bodies, to ensure alignment and promote a safe working environment.
- Lead initiatives for continuous improvement in safety performance, driving innovations and best practices in health, safety, and environmental management.

## **SAFETY OFFICER, Military Hospital Quetta, January 2015-January 2017**

### **Quetta Pakistan**

- Ensure adherence to local, national, and industry-specific safety standards and regulations, including OSHA and other relevant guidelines.
- Lead investigations into workplace accidents, near misses, and incidents, identifying root causes and implementing corrective actions.
- Conduct safety training programs for employees at all levels, promoting safety awareness and best practices.
- Develop and manage emergency response plans, including fire drills, evacuation procedures, and first-aid readiness.
- Manage work permits, Safety Task Assignments (STA), Job Safety Analysis (JSA), and Work at Height protocols to ensure safe operations.
- Ensure the proper use of checklists, signage, tags, and barricades to enhance onsite safety and visibility.
- Welding, HDPE welding, hot work, hydro testing, etc.
- Crane operations and rigging activities.
- Ensure full implementation of Health, Safety, and Environmental (HSE) procedures, plans, and programs throughout all construction phases.
- Participate in HSE audits and site walkthroughs, immediately addressing unsafe acts and conditions.
- Facilitate and participate in regular TBTs, mass toolbox meetings, and safety briefings to promote ongoing safety awareness.
- Implement and enforce excavation safety protocols, identifying potential hazards and ensuring corrective actions are taken.
- Submit safety plans, weekly and monthly safety reports, and other required documents to the client.
