

MOIZ KHAN MOHAMMED

HSE Engineer | Occupational Health & Safety Specialist

Jeddah, Saudi Arabia | Transferable Iqama

+966-533965044 | mohdmoizkhan349@gmail.com

PROFESSIONAL SUMMARY

Experienced **HSE Engineer** with over 9 years of hands-on site experience across refinery, construction, and industrial environments in the Middle East and India. Known for maintaining strong site safety discipline, supporting operational teams, and ensuring compliance with safety standards and local regulations. Skilled in practical risk control, incident investigation, and workforce safety training. Actively seeking an HSE opportunity in Saudi Arabia where I can contribute to safer operations and continuous improvement.

CORE SKILLS & KEY COMPETENCIES

- Occupational Health & Safety Management Systems (HSMS)
- Risk Assessment, Hazard Identification (HAZID) & Control Measures
- Incident Investigation & Root Cause Analysis (RCA)
- Permit to Work (PTW) Systems (Hot Work, Confined Space, Work at Height)
- Job Safety Analysis (JSA / JHA)
- Safety Audits, Inspections & Compliance Monitoring
- Emergency Response Planning & Fire Safety Management
- Environmental Safety, Waste Management & Chemical Safety
- Toolbox Talks, Safety Inductions & Workforce Training
- PPE Compliance & Contractor Safety Management
- Accident Prevention & Safety Performance Improvement
- Regulatory Compliance (NEBOSH Standards, International HSE Practices)

PROFESSIONAL EXPERIENCE

HSE Engineer | Hud Hud Project Management Services EST, UAE

Dec 2022 – Jan 2025 - Conducted routine site safety inspections and ensured compliance with approved HSE procedures and project safety plans. - Supported supervisors and engineers in implementing risk control measures during daily site activities. - Investigated incidents and near misses, prepared reports, and followed up on corrective and preventive actions. - Delivered toolbox talks and safety inductions to workers and subcontractors. - Coordinated fire drills and emergency response exercises to improve site preparedness. - Maintained HSE documentation and safety records as per client and regulatory requirements.

HSE Engineer | Mangalore Refinery and Petrochemicals Ltd (MRPL), India

Oct 2021 – Nov 2022 - Monitored refinery operations to ensure adherence to occupational health, safety, and environmental regulations. - Managed Permit to Work (PTW) activities including hot work, confined space entry, and height work. - Supported chemical handling safety, waste management practices, and pollution prevention initiatives. - Participated in internal safety audits and compliance inspections. - Assisted in safety awareness programs and workforce training sessions.

HSE Engineer | Arabian Training and Safety Co., Oman

May 2014 – Sep 2019 - Implemented site-level safety programs and monitored compliance with company HSE standards. - Performed job safety analysis (JSA) and hazard identification activities. - Conducted safety inductions and toolbox talks for new and existing employees. - Assisted in emergency preparedness planning and fire safety drills. - Prepared safety reports and maintained accident and inspection records.
