Position Applied For: Senior Surveyor

Experience: 13 Years

PROFESSIONAL SUMMARY

Highly experienced Senior Land Surveyor with 13 years of expertise in construction surveying, roads, infrastructure, and high-precision leveling. Skilled in Total Station, GPS, AutoCAD, and Civil 3D with a strong technical background in site layout, data processing, and as-built documentation. Proven ability to deliver accurate results, improve workflow efficiency, and coordinate with engineering and construction teams.

CORE RESPONSIBILITIES

- Conduct topographic and as-built surveys with Total Station and GPS.
- Establish and verify control points and benchmarks.
- Perform site calibration and adjustments for coordinate systems.
- Prepare detailed survey reports and deliverables.
- Review and interpret construction drawings.
- Set out buildings, roads, utilities, and infrastructure works.
- Manage and transfer survey data using specialized software.
- Collaborate with engineers to ensure accurate implementation.
