OBJECTIVE

Motivated and technically skilled Computer Networks student at Jubail Technical Institute, with hands-on experience in network configuration, system integration, and Audio/Visual (AV) technologies. Proficient in configuring routers, VLANs, VPNs, and AV over IP solutions, and familiar with Microsoft Azure and cybersecurity concepts. Seeking to join a progressive organization where I can apply my technical knowledge, teamwork, and problem-solving skills to contribute to network operations, IT infrastructure, or AV system projects, while continuing to grow professionally in the field of networking and cybersecurity.

EDUCATION

- Jubail Technical Institute | Major: Computer Networks | Graduation Year: 2025

PROFESSIONAL EXPERIENCE

Summer Training – Network Management | IDEC | July – September 2025

- Configured routers and switches, including VLANs, Static Routes, and VPN connections.
- Assisted in AV integration, including AV over IP systems, interactive screens, and conferencing setups.
- Prepared daily technical reports in English documenting system configurations and troubleshooting steps.
- Collaborated with senior engineers to ensure smooth network and AV operations.

PROJECTS

Auditorium Model Project (SLD – AV Systems Design)

- Participated in the design and execution of AV system layouts, including sound and video distribution plans.
- Used engineering design software to develop system schematics for an auditorium setup.
- Gained practical experience in AV coordination and system planning within a professional environment.

Graduation Project – Cybersecurity

- Designed and implemented network security solutions including firewall configuration and vulnerability assessment.
- Conducted penetration testing and risk evaluation across simulated networks.

Networking Labs

- Configured routers, switches, VPN connections, VLAN management, and static routing in lab environments.

AV System Installation Project

- Installed complete AV systems, including interactive screens and video conferencing units for corporate use.

Intern – Computer Maintenance

- Performed on-site maintenance across multiple locations as part of a technical team.
- Diagnosed hardware and software issues efficiently.
- Installed operating systems and software, resolving technical problems promptly

COURSES & CERTIFICATIONS

- CCNA: Switching, Routing, and Wireless Essentials | 29 May 2025
- Dante AV over IP – Level 2 (2nd Edition) | 29 July 2025
- CCNA: Introduction to Networks | 20 Jan 2025
- Risk Management, 19–20 January 2022
- Cyber Security Risk Management, 22 February 2022
- Cyber Security Tools & Cyber Attacks Course, 25 February 2022
- Dante AV over IP – Level 1 (2nd Edition) | 21 July 2025
- Tesira Design – Level 01 | 16 September 2025

PERSONAL SKILLS

- Problem-Solving & Analytical Thinking
- Communication & Team Collaboration
- Adaptability & Quick Learning
- Time Management & Organization
- Work Under Pressure with Precision
- Professional Ethics & Continuous Improvement

TECHNICAL SKILLS

- Network Configuration (VLANs, VPN, HSRP, STP, Static Routes)
- Audio/Visual Systems (AV over IP, Dante Level 1 & 2, Tesira Design)
- Microsoft Azure (Beginner Level – Learning Path)
- Cisco
- LAN/WAN - TCP/IP
- Cybersecurity & Vulnerability Testing
- System Integration & Technical Support
- Documentation & Report Writing
- Routing Protocols (OSPF, EIGRP)
- Troubleshooting

LANGUAGES

- Arabic: Native
- English: Excellent
