Realistic review date given			Met
Reason for review date given			Met
Indicate how the risk assessment findings will be communicated			Met
Indicate who the risk assessment findings will be communicated to			Met
Indicate how you will follow up to check that the identified actions have been carried out			Met
Outcome	Pass		

NEBOSH International General Certificate in Occupational Health and Safety

Unit IG2: Risk Assessment: Examiner Feedback

Feedback

In part-1,

Described as required such as organization description with shift pattern, number of working crew, area of risk assessment covered, and source of information consulted. Description of the methodology used to conduct the risk assessment was given by a description of the information consulted, who was consulted and how they decided on the control measures.

In part-2,

The learner identified 10 different hazards from 5 different hazard categories. The learner could identify the people who might be harmed by each hazard, as well as what is already being done to control them. The learner identified suitable further actions required to control the recorded hazards. Found reasonable timescales, for the implementation of the additional control measures. Found responsible person for each of the action.

In part-3,

3 actions were prioritized with legal, moral & financial justification. Severity & likelihood also considered for each of his action chosen with description of how effective each of his action will be controlling the risk .

In part-4,

A realistic review date was given as well as the reason for the review date . The learner indicated how the risk assessment findings will be communicated and who it will be communicated to. The learner also indicated how identified actions will be a follow-up to ensure they are carried out.

Overall, the risk assessment is found suitable & sufficient.
