

ABDUL WAHAAB

CIVIL ENGINEER

Accomplished Civil Engineer in total 10 years of progressive experience across India & Saudi Arabia in construction, site supervision, quality control and project management compliance with safety standards.

Implementing robust systems, managing end-to-end inspection protocols, and driving compliance with construction standards. Expertise spans concrete technology, structural inspection, MEP coordination, and NCR management, through proactive surveillance and root cause analysis. Adept in engineering documentation, material testing procedure, and multi-disciplinary stakeholder coordination, ensuring timely approvals and seamless project delivery.

WORK EXPERIENCE

QC Civil Inspector

Unimac Company, Riyadh, KSA

Aug 2025- Jan 2026

Summary:

Working as a Civil QC Inspector in Qiddiya Package 10 Landscape Project. Skilled in implementing project quality requirements, conducting inspections, verifying materials, and ensuring all works comply with approved IFC drawings, specifications, and client standards.

Key Responsibilities:

Quality Control & Inspection:

- Conduct inspections for landscape works such as hardscape, paving, curbstones, interlock, road works, softscape planting, soil works, and irrigation systems.
- Inspect civil and infrastructure works including excavation, backfilling, soil compaction Concrete works, foundations, ducts, manholes, and utilities
- Ensure all work complies with approved drawings, project specifications, ITPs, and method statements.
- Verify material approvals (MARs) and ensure only approved materials are used on-site.
- Communicate with the site team to ensure proper work execution before raising inspections.
- Coordinate with construction teams, subcontractors, and the consultant to resolve quality-related issues.
- Monitor concrete quality, mix approvals, slump tests, curing, and finishing works.
- Ensure work is performed in accordance with project safety requirements.

QC Civil Inspector

Taj Al Azizia, Riyadh, Saudi Arabia

Mar 2021 – Mar 2025

Summary:

An experienced QC Inspector specializing in ensuring construction quality, site supervision material compliance, and site inspections across infrastructure, and landscape development projects.

Key Responsibilities:

- Quality Control Management:
Conducted comprehensive site inspections to ensure quality compliance across all phases of construction including civil and landscaping works.
- Oversaw material testing for soil.
- Ensured quality benchmarks were met for sub-base compaction & leveling
- Landscape & Softscape:
• Reviewed and approved horticultural materials, planting schedules, and mock-ups before full-scale implementation.
- Monitored softscape activities such as tree planting, turf laying, and shrub installations, ensuring approved samples, and horticultural guidelines.
- Supervised hardscape works like interlock paving, curbstones installation, garden furniture installation, and perimeter edge treatment

Civil Qc Inspector & Site Engineer

S.D. Singh Constructions, Noida, India

Apr 2019 – Feb 2021

Summary:

A skilled QC Inspector with a focus on managing site operations for residential construction projects.

Responsible for ensuring quality assurance across multiple construction phases through meticulous inspections, material testing, and effective client coordination.

Key Responsibilities:

- **Site Supervision & Inspection:**
 - Supervised site work activities, ensuring that construction processes adhered to established standards.
 - Conducted inspections for materials and workmanship to verify compliance with contract documents.
- **Documentation & Reporting:**
 - Prepared and submitted detailed inspection reports, including identifying discrepancies in work quality and material specifications.
 - Managed documentation related to NCRs, work inspection requests, and quality assessments.
- **Material Compliance & Testing:**
 - Led material inspections, ensuring that all materials met the project requirements and international standards before use.
 - Coordinated third-party testing and verified that test results were in line with project specifications.
- **Quality Assurance Planning:**
 - Ensured that quality control procedures were effectively implemented for each construction stage, from earthworks to finishing.
 - Collaborated with consultants to develop method statements and work instructions tailored to project specifications.
- **Risk & Compliance Management:**
 - Ensured adherence to safety protocols and environmental standards during construction.
 - Actively participated in regular quality audits to assess construction quality and site conditions.

Site Engineer

S.R. Enterprises, Noida, India

Jan 2015 – Mar 2019

Summary:

An experienced Site Engineer with hands-on experience in supervising site activities, coordinating with contractors, and ensuring work execution as per drawings, specifications, and safety standards. Skilled in daily site inspections, material verification, progress reporting, and resolving on-site technical issues. Strong ability to manage manpower, maintain quality control, and support smooth project execution. Known for teamwork, problem-solving, and ensuring timely project delivery.

Key Responsibilities:

- Supervise daily site activities to ensure work is carried out as per approved drawings, specifications, and project standards.
- Coordinate with subcontractors, supervisors, and labor teams to ensure smooth workflow and timely project progress.
- Conduct site inspections for structural, finishing, and infrastructure works.
- Prepare daily progress reports, site logs, and documentation.
- Resolve on-site technical issues and provide solutions to maintain work continuity.
- Verify and ensure the quality of materials delivered to the site.
- Resolve on-site technical issues and provide solutions to maintain work continuity.
- Monitor manpower allocation, productivity, and resource usage.
- Ensure all site works comply with safety regulations and company HSE policies.
- Assist in planning, scheduling, and sequencing of construction activities.
- Coordinate with consultants and clients during inspections and approvals.
 - Check formwork, reinforcement, concreting, and finishing works for compliance with standards

EDUCATION

Post Graduate Diploma in Project Management

Maharashtra Institute of Technology – Pune, India Graduated: 2020

Bachelor of Technology in Civil Engineering

Maharshi Dayanand University, Haryana, India

Graduated: 2015

KEY PROJECTS EXECUTED

Qiddiya Landscape Project Package 10 - Unimac Company

Role: QC Civil Inspector | **Location:** Riyadh, KSA | **Duration:** Aug 2025-Till now
