Experience

SITE ENGINEER | 05/2024 - 01/2026

Saudi Arabian Baytur Company - Riyadh, Saudi Arabia

As a Site Engineer, I oversee on-site construction activities, ensuring projects are executed according to approved drawings, specifications, and safety standards. I coordinate with contractors and stakeholders to resolve technical issues, monitor progress, and deliver projects on time and within budget.

- Delivered construction projects on schedule by coordinating site activities, and resolving technical issues efficiently.
- Improved build quality by ensuring strict compliance with delivered construction projects on schedule, by coordinating site activities and resolving technical issues efficiently.
- Improved build quality by ensuring strict compliance with approved drawings, specifications, and regulatory standards.

SITE COORDINATOR | 03/2023 - 04/2024

Tharaa Capital Company - Jeddah, Saudi Arabia

- Reduced project delays through proactive issue resolution and effective on-site communication.
- Improved workflow efficiency by aligning site activities with project timelines and milestones.
- Supported on-time project completion by tracking progress and escalating risks early.
- Enhanced collaboration between teams and stakeholders, improving overall site productivity.

JUNIOR SITE ENGINEER | 11/2021 - 02/2023

M/S Sahil and Builders - Punjab, Pakistan

- Coordinated with subcontractors to ensure the timely completion of tasks.

- Conducted regular inspections of materials and equipment for quality assurance.
- Supported the implementation of safety protocols on construction sites.
- Maintained effective communication with team members and stakeholders throughout projects.

INTERNE CIVIL ENGINEER | 08/2021 - 10/2021

Pakistan Tobacco Company Ltd. - KPK, Pakistan

- Managed and directed construction, operations, or maintenance activities at the project site.
- Surveyed project sites to establish reference points to guide construction.
- Implemented safety and accident prevention programs prior to the start of each project, conducting tailgate meetings daily.
- Compiled and presented public reports and environmental impact statements to inform stakeholders, municipal officials, and members of the public about planned civil projects.
