

OMAR ABDELAZIZ ALI AL-JABERTI

CIVIL ENGINEER | STRUCTURAL DESIGN | PROJECT MANAGEMENT & SUPERVISION

Saudi Arabia | +966538572401 | Eng.omar728@gmail.com

Results-driven Civil Engineer with over 10 years of progressive experience in structural design, project supervision, and project management in Yemen and Saudi Arabia. Proven expertise in managing teams, preparing technical and financial reports, quality assurance, and schedule management in compliance with international engineering standards. Seeking a challenging position with a leading organization to contribute to high-quality projects and operational excellence.

PROFESSIONAL EXPERIENCE

Civil Engineer – Al-Arabia Al-Ajwad Company | Jeddah, Saudi Arabia **April 2025 – Present**

- Prepare and review structural design drawings for construction projects with meticulous attention to detail
- Supervise on-site execution of works and ensure full compliance with technical drawings and specifications
- Coordinate with consultants and contractors to resolve technical challenges during implementation
- Monitor project progress and implement quality control and safety measures on-site

Civil Engineer – Al-Waili Contracting Company | Ibb, Yemen **June 2022 – March 2025**

- Supervised complete execution of construction projects from initial stage to final delivery
- Oversaw UNICEF-affiliated project while maintaining strict adherence to international standards and schedules
- Prepared comprehensive technical and financial reports that supported decision-making processes
- Managed on-site teams efficiently and ensured high-quality performance and execution standards

Civil Engineer – Al-Jaberti Engineering Office | Sana'a, Yemen **January 2017 – May 2022**

- Prepared structural designs and supervised implementation of diverse projects (residential and commercial)
- Calculated quantities accurately and prepared bills of quantities and financial statements
- Provided engineering consultations that improved execution efficiency and reduced costs
- Supervised work teams and ensured full compliance with quality standards

Site Engineer – Ali Al-Sanea Contracting Company | Sana'a, Yemen **June 2014 – December 2016**

- Provided technical supervision of all project implementation phases
- Participated in planning, execution, and resource management on-site
- Contributed to developing work methodologies that reduced costs and improved productivity

EDUCATION

Bachelor of Science in Civil Engineering

University of Science and Technology – Sana'a | 2010 – 2014

CERTIFICATIONS & TRAINING

- Engineering Project Management (2015)
- Primavera for Project Management (2015)
- ETABS & SAFE for Structural Analysis and Design (2013)
- Building Information Modeling – BIM (2014)
- International Computer Driving License – ICDL
- Youth Development Program – Social Development Fund
- Rainwater Harvesting and Management (2014)

TECHNICAL SKILLS

- AutoCAD – Computer-aided design and drafting
- ETABS / SAFE – Structural analysis and design
- BIM – Building Information Modeling
- Primavera – Project management and scheduling
- Structural drawing preparation
- Quantity calculation and bill of quantities preparation
- Technical and financial report preparation

MANAGEMENT & SOFT SKILLS

- Project management and coordination
- Team leadership and management
- Effective communication and teamwork
- Problem-solving and decision-making
- Time and resource management
- Adaptability and ability to work under pressure
- On-time and on-budget project delivery

LANGUAGES

- Arabic – Native Speaker
- English – Advanced Professional Level

ADDITIONAL INFORMATION

- Ready for immediate employment within Saudi Arabia
- Flexible to work in both field and office environments as per job requirements
