

## **MOAYAD ARABI**

Jeddah • 0511436468 • Arabimoayad727@gmail.com

### **SUMMARY**

Safety Engineer with 5+ years of experience in construction and infrastructure projects. Skilled in risk assessment, permit-to-work control, and contractor supervision. Strong knowledge of NEBOSH and OSHA standards with a proven record of reducing incidents and promoting a proactive safety culture.

### **WORK EXPERIENCE**

#### **HSE Engineer – Mass Construction Company**

**Roshn Projects, Jeddah**

**Nov 2025 – Present**

Led safety implementation for 200+ workers on site, achieving zero lost time injuries while ensuring full compliance with approved procedures. Coordinated with project teams to control risks and reinforce proper use of personal protective equipment. Identified and corrected unsafe behaviors through effective corrective and preventive actions, while supporting safety awareness programs and toolbox talks to enhance overall compliance.

#### **Safety Engineer – Al Nokhba Infrastructure Co.**

**Makkah, Saudi Arabia**

**Sep 2023 – Oct 2025**

Led the implementation of HSE requirements across excavation and site activities through hazard identification, reporting, and strict compliance enforcement. Supervised workers and subcontractors, managed permits and documentation, and coordinated directly with the consultant to close observations, enhance compliance, and maintain a safe work environment.

### **EDUCATION**

Bachelor's Degree in Software Engineering

Al Mashreq University – Khartoum, Sudan

Oct 2011 – Dec 2017

#### CERTIFICATIONS

NEBOSH International General Certificate – 2023

OSHA Certificate – Al Khawarizmi Training Center
