## WORK EXPERIENCE

**QC INSPECTOR** | TAMIMI GLOBAL COMPANY SERVICES AND MAINTAINANCE INTERNATIONAL (PRE-ENGINEERED BUILDINGS) | Dec 2019 - Present

**CIVIL QC INSPECTOR** | Neom Trojena Contractors Village | Mar 2022 - Present

- Conduct daily site inspections to verify civil works comply with project specifications and standards
- Review construction drawings and report any discrepancies to the engineering team
- Monitor contractors' activities to ensure adherence to approved quality control procedures
- Prepare inspection reports and maintain detailed quality documentation for all civil works
- Verify material quality and ensure compliance with relevant codes and approved submittals
- Witness and document concrete pouring, compaction, curing, and related field tests
- Inspect rebar placement, formwork, and alignment before concrete works commence
- Coordinate with stakeholders to resolve quality issues and implement corrective actions
- Ensure compliance with safety regulations during all civil inspection activities

**CIVIL QC INSPECTOR** | NC1 SHARMA | Dec 2019 - Mar 2022

- Conduct daily inspections of civil works to ensure compliance with project specifications
- Review and verify construction materials meet required quality standards
- Monitor contractor activities to ensure adherence to approved drawings and procedures
- Prepare detailed inspection reports and document non-conformance issues
- Perform checks on excavation, backfilling and soil compaction activities
- Verify proper execution of concrete works, formwork, reinforcement and compaction
- Coordinate with site engineers to resolve quality-related problems promptly
- Ensure compliance with safety regulations during all inspection tasks
- Witness and record site testing such as slump tests and soil density tests
- Follow up on corrective actions to close non-conformance reports effectively

**CIVIL SUPERVISOR** | AL MAHDI EST Riyadh || May 2016 - Nov 2019

- Supervised daily civil construction activities to ensure strict compliance with project plans, specifications, and quality standards
- Coordinated workforce, subcontractors, and site resources to support efficient execution of construction tasks
- Monitored on-site safety practices and enforced adherence to established safety regulations and procedures
- Inspected ongoing work to verify quality, identify issues, and implement timely corrective actions
- Reviewed and interpreted construction drawings, plans, and related project documentation to guide site operations
- Communicated project progress, challenges, and site requirements to project managers and relevant stakeholders
- Planned work schedules and allocated manpower to support timely completion of project milestones
- Ensured proper use, handling, and maintenance of tools, equipment, and construction materials on site
- Conducted toolbox talks and delivered safety briefings to reinforce safe work practices among site personnel

**SUB-ENGINEER CIVIL** | National Logistic of Pakistan | Mar 2014 - Apr 2016

- Prepared detailed civil engineering drawings and plans using CAD software in support of project design requirements
- Conducted site inspections to monitor construction progress, verify compliance, and identify potential issues
- Estimated quantities and prepared cost assessments for various civil works to support project planning
- Assisted in drafting project reports, technical specifications, and documentation for engineering review
- Coordinated with contractors and stakeholders to resolve on-site challenges and maintain workflow continuity
- Performed surveying tasks and verified site measurements to ensure design accuracy and alignment
- Ensured materials and workmanship met established engineering standards and construction guidelines
- Supported senior engineers in structural analysis activities and design review processes
- Monitored project schedules, identified deviations, and reported updates to the engineering team
- Reviewed construction drawings and highlighted discrepancies requiring correction or clarification
