SUMMARY

Dynamic Project Controls Manager with over 20 years of experience in cost estimating, analysis, and control activities for one or more delivery teams. Supervises schedule development, maintenance, monitoring, impact identification, and recovery plan development activities. Supervises the preparation and presentation of estimates. Supports project organizational and administrative activities. Identifies, examines, and provides innovative solutions to cost engineering and planning/scheduling problems. Provides generally non-routine cost engineering/planning and scheduling guidance to projects.

Reports to and receives technical guidance and operational supervision from designated supervisory personnel. Provides technical and operational direction to assigned personnel. Ensures work is completed as scheduled. Maintains relationships with the Project Manager and project personnel, particularly individual discipline group leaders and engineers. Continuing contacts with Project Manager, project team members, and working and supervisory level personnel of other departments

WORK EXPERIENCE

Projects Planning and Control manager

Petrojet

10/2024 -Till Moment

Suez-Egypt

- Provide leadership to the Project Controls and Commercial department in relation to all aspects of change management, claims management, and dispute resolution

- Preparing budgets and overseeing the financial administration of planning projects

PROJECTS

- 30000 Ton steel structure fabrication for Various projects with different clients
- 6 tanks fabrication for Sumed (500 Ton)
- 7000 Inch fabrication and erection for Suez steel company (alloy piping) on PG-heater
- 6 tanks fabrication for Petrojet
- Rehabilitation of two cocker heater for Suez oil petroleum
- 500 Ton B.U.S fabrication for different projects
- LPG vessel TOOB fabrication for Port Said / Suez coating plant
- 9 stainless steel tanks fabrication for Mopco1,2 project
- Fence fabrication for Algeria lot 2
- Machin towers fabrication for kar-Elshekh , Assuit and Abo-Elmatamer
- Fired Heater Fabrication 40H-1 for Elnasr co.
- 11 pressure vessel fabrication for E-STRYNICS.
- 5 pressure vessel fabrication for Amapetco
- EL-Hamed platform deck 250 ton for GPC
- Rehabilitation of cocker heater for Suez petroleum company
- 12 Tanks fabrication for Altube pumping storage terminal
- Piping Pre-Fabrication (Super Duplex, Duplex, Stainless Steel Carbon steel) 5000".
- Fired Heater Fabrication 40H-1 for Elnasr co
-

PROJECTS

- Fired Heater Fabrication 40H-1 for Elnasr co
- 11 pressure vessel fabrication for E-STRYNICS.
- 5 pressure vessel fabrication for Amapetco
- Fabrication of 4 pig launcher and receiver traps for Qaroon
- Fabrication of 2 pig launcher and receiver traps for Fajr/Enppi
- 2 Tank fabrication for Sumed (2000 Ton)
- 5 Tanks fabrication for Lebanon (2000 Ton)
- Fabrication of 2 pig launcher and receiver traps for Nospoco
- 42 Tanks fabrication for Arab Potash Company – Jordan
- 11 Tanks fabrication for Yemen LNG
- 17 pressure vessel fabrication for Petrofac
- El-Khafgi Tanks Fabrication for KSA project
- Scaffolding fab. For 5 Cells
- 10 pressure vessel fabrication for E-lab
- Fabrication of low-pressure vessel – Enppi

Fabrication Engineer

Petrojet

08/2004 -Till 12/2004

Cairo-Egypt

- Assist Production Manager in achieving the required goals
- Manage Fabrication team
- Maintaining the quality of Steel Fabrication production
- Review production schedules, engineering specifications, orders, and related information to obtain knowledge of manufacturing methods, procedures, and activities
- Follow up the daily fabrication and ensure the efficiency of the equipment
- Coordinate and implement quality control objectives, activities or procedures to resolve production problems, maximize product reliability, or minimize costs
- Controls production process and production facilities
- Responsible for preparing production lines
- Develop material handling and manipulation requirements to facilitate fabrication and delivery to production
- Support project delivery requirements – time/cost/quality

PROJECTS

- Fabrication of 10 tower for UHDE
- Fabrication of mercury removal skid for Khalda-ITT
- Fabrication of mercury high pressure separator for Khalda-ITT
- Fabrication of low-pressure vessel for Enppi
