• **Key Responsibilities**

- Plan, coordinate, and supervise all lifting and rigging operations in compliance with project-specific method statements and lifting plans.
- Conduct pre-lift meetings and toolbox talks to ensure all team members understand lifting procedures, hazards, and safety measures.
- Inspect and verify lifting equipment, slings, shackles, and cranes to ensure conformity with applicable safety standards and certification.
- Interpret technical drawings, lifting plans, and load charts to assess load weight, center of gravity, and rigging configuration.

- Ensure rigging gear is correctly selected, tagged, and used according to the manufacturer's specifications and project requirements.
- Liaise with crane operators, signalmen, engineers, and site supervisors to ensure synchronized and controlled lifting operations.
- Monitor environmental and site conditions to identify and mitigate potential risks associated with lifting activities.
- Maintain detailed records of daily lifting operations, inspections, and incidents for audit and quality assurance purposes.
- Enforce compliance with HSE regulations and company policies to promote a culture of safety and operational excellence.
- Lead and mentor rigging crew members, providing guidance and hands-on training in safe lifting practices and techniques.

- **Education & Certifications**

- F.S.C (Pre Engineering) GOVT. Islamia College Sialkot
- NEBOSH Certified (Occupational Safety & Health)
- Matriculation — BISE GRW

- **Skills**

- Rigging and lifting operations for heavy equipment and materials.
- Load assessment and positioning.
- Supervising and training rigging teams.
- Reading technical and load diagrams.
- Ensuring site safety and compliance with procedures.
