- Multi story buildings, Residential Housing Projects (Pre-cast & Cast in site), Commercial, Schools, Hospitals, runways, Infrastructure and Roads.

EXPERIENCE HISTORY

PROJECT AND RESPONSIBILITIES:

Duration	: March 2025 – Till to day
Position	: QA/QC FINISHING Architect Engineer
Employer	: Al Kifah Contracting Company
Client	: Roshn Group
Project	: Riyadh Township Sedra Phase 1B
Location	: North Riyadh KSA.

PROJECT OVERVIEW

SEDRA is a housing development project in Northern Riyadh, Saudi Arabia, located east of Princess Nourah bint Abdul Rahman University and north of al-Munsiyah, 30,000 homes nestled in thriving neighborhoods supported by education and healthcare infrastructure, retail outlets, restaurants, parks, shaded footpaths, cycle tracks, and green spaces.

KEY RESPONSIBILITIES

- Carried out quality inspection on site and ensure quality of work to be completed on scheduled time.
- Close coordination of work with both internal and external parties.
- Inspected Finishing activities: (CMU, Plaster, Paint, Flooring, Roofing, Ceiling, Facade work and interior designs).
- Raising non-conformity for any deviation in work regarding IFC drawings, Specifications, and standards.
- Verifying that all necessary inspections and tests, as required of the project and statutory regulations, are carried out and appropriate records are updated and maintained.
- Reviewing and updating quality documentation and procedures.
- Monitoring inspection & test reports of completed inspections & tests are concurrent.
- Have basic knowledge of reliability, maintainability, and risk management, including key terms and definitions, modelling, systems design, assessment tools, and reporting.
- Performing regular audits to track progress and adherence to standards.
- Working with project managers, engineers, and contractors to maintain high standards.
- Identifying areas where improvements are needed and implementing corrective measures.
- Have a thorough understanding of problem-solving and quality improvement tools and techniques.
- Understanding relevant codes, regulations, and best practices within the industry.
- ensures that quality remains high at every step. Without regular checks, small issues could snowball into larger problems.
- Coordinating quality activities with subcontractors and any other individual parties who may be working on the same site.
- Coordination with clients / third party, in accordance with approved ITP, for agreed witness inspections & tests.
- Reviewing and performing material receiving inspection as per company and client requirements, applicable standards / specifications etc.

EXPERIENCE HISTORY

شركة الخنيني العالمية المحدودة
