---

**PROFESSIONAL SUMMARY**

Planning Engineer with expertise in project scheduling, performing critical path analysis, resource allocation and progress monitoring across building, interior fit-out, and landscape projects. Looking for a challenging role to contribute to efficient project execution and support continuous organizational growth.

**EDUCATION****Master of Business Administration (MBA), Project Management**

Amity University Distance Education, 2025 – Present

**Bachelor of Civil Engineering**

Paavai Engineering College, 2019 – 2022

**Diploma in Civil Engineering**

Thiagarajar Polytechnic College, 2016 – 2019

**WORK EXPERIENCE**

Planning Engineer / Project Controls – Head Office

**Hennessey LLC, Dubai | Oct 2024 – Present**

**Roles & Responsibilities:**

- Developed comprehensive project schedules, defining timelines, milestones, and resource requirements to ensure effective and timely project execution.
- Prepared and maintained daily, weekly, and monthly progress reports, monitoring actual progress against planned schedules and implementing updates as required.
- Created and managed Work Breakdown Structures (WBS), conducted resource loading and leveling, and performed critical path analysis for accurate project tracking.
- Generated manpower histograms, progress S-curves, and cash flow forecasts to support performance analysis and management reporting.
- Coordinated with site teams, subcontractors, consultants, and procurement departments to ensure timely resource allocation and material availability.
- Developed tender, baseline, and mark-up programs, along with procurement schedules and lookahead plans (2-week and 3-week), to align short- and long-term project objectives.
- Supported senior planners during internal and client review meetings, contributing to progress discussions and strategic planning decisions.
- Monitored project milestones, identified potential delays, and assisted in the preparation of recovery plans to maintain schedule integrity.

- Utilized Earned Value Management (EVM) to prepare schedule and cost variance reports, ensuring proactive decision-making and performance improvement.

#### **Project Domains:**

- General building construction.
- Interior fit-out works.
- Landscape projects (softscape, hardscape and swimming pools)
- Joinery works.
- Structural damage and repair works.
