aljohara.alraoji@gmail.com | Riyadh, Saudi Arabia|+966583105062

CAREER OBJECTIVE

graduate with a bachelor's degree in chemistry, who has skills in dealing with several devices in the laboratory and is interested in the field of Chemical Engineering, Environmental and Analysis laboratories. I aspire to obtain a job opportunity to apply my knowledge and develop my experience.

Education

Princess Nourah bint Abdirahman university 06/2023
2019-2023

Bachelors of general chemistry with GPA 4.50 – 5

EXPERIENCE

Jun 2024-Jun2025

Quality Coordinator for **Healthy Oasis Hospital** Development and manage quality improvement and patient safety programs in hospital departments , responsible CBAHI,HQI and monitoring KPI

Jan 2024

Quality Ambassador for **Saudi standards metrology and Quality organization SASO**

Attending workshops and courses on Quality

Sep 2023 – Dec 2023

-**King Abdullah international Medical Research center (KIMARC)** laboratory assistant in medical chemistry laboratories, worked on analytical instruments including HPLC,MS,NMR,UV,IR,Purificacion and assisted in the analysis of chemical samples with environmental relevance.

Jun 2023 - 31Aug 2023

-Co-op Trainee – Environmental & Chemical Analysis Institute of Mining Technologies and Hydrocarbons & Chemical Research **king Abdulaziz city for science and Technology**, Performed physicochemical analysis and preparation of environmental samples.

•Ensured accurate data recording, waste handling, and compliance with environmental laboratory procedures, hand on experience with Various analytical instruments Including Density meter, flooding unit, FT, Zeta potential, viscosity measure, Nano flex

-**King Abdulaziz City for Science and Technology (KACST)** practical application for the graduation project material MOFS-808 for environmental applications devices were used; centrifuge -XRD-BET-IR-UV-VIs spectra -SEM image.

Course

-ISO14001 Environmental management system Accredited Technical, Vocational training Corporation

-ISO9001-2015 Accredited Technical, Vocational Training corporation

-HACCP Accredited Technical, Vocational Training corporation And Saudi food, drug Authority.

-basic principles of laboratory techniques from Saudi commission for health specialties.

Skills

-Fast learning and the ability to work under job pressure.

-Microsoft office (Word, Excel, PowerPoint)

-the full ability to work in a team.

-solving problems
